## LUME CUBE LC-SCUP11

# LUME CUBE Suction Cup Mount Instruction Manual

Model: LC-SCUP11 | Brand: LUME CUBE

## INTRODUCTION

---

The LUME CUBE Suction Cup Mount is designed to provide a versatile and secure attachment solution for your Lume Cube light. This mount allows you to easily position your Lume Cube on any flat, non-porous surface, such as tables, glass, or even the back of a smartphone, enhancing your lighting options for various recording scenarios.

## WHAT'S IN THE BOX

---

- Suction Cup Mount (Model LC-SCUP11)

*Note: Lume Cube lights are sold separately.*

## SETUP AND ASSEMBLY

---

1. **Attach Lume Cube to Mount:** The Suction Cup Mount features a 1/4"-20 mounting screw. Align the screw with the mounting hole on your Lume Cube light and rotate the Lume Cube clockwise until it is securely fastened.

*Image: A Lume Cube light is shown attached to the top of the suction cup mount, ready for use.*

2. **Positioning the Mount:** The mount includes a tilting ball head and offers 360° rotation, allowing for flexible adjustment of your Lume Cube's angle and direction. Loosen the adjustment knob, position the light as desired, and then tighten the knob to secure.

## OPERATING THE SUCTION CUP

1. **Prepare the Surface:** Ensure the surface where you intend to attach the suction cup is clean, dry, and smooth. Dust or debris can reduce suction effectiveness.
2. **Attach the Suction Cup:** Press the suction cup firmly against the desired flat surface.

*Image: A hand holds the suction cup mount, illustrating its size and how it can be positioned on a device like a smartphone.*

- 3. Engage the Suction Lock:** Flip the small latch on the side of the suction cup down. This action creates a vacuum, securely locking the mount to the surface.

*Image: The suction cup mount is shown firmly attached to the back of an iPhone, with the latch engaged for secure placement.*

*Image: A Lume Cube light is positioned on top of an iPhone, held by the suction cup mount, demonstrating a common use case.*

- 4. Release the Suction:** To remove the mount, simply flip the latch back up. This releases the vacuum, allowing you to easily detach the suction cup from the surface.

## MAINTENANCE

If the suction cup loses its stickiness due to dust or debris, simply wash it with water and allow it to air dry. This will restore its adhesive properties.

## SPECIFICATIONS

Feature	Detail
Brand	LUME CUBE
Model Number	LC-SCUP11
Color	Black

Compatible Devices	Lume Cube
Mounting Type	Wall Mount (Suction)
Special Feature	Rotatable
Water Resistance Level	Not Water Resistant
Item Dimensions (LxWxH)	2.36 x 2.36 x 1.97 inches
Item Weight	60 Grams
Material	Glass (referring to the suction cup material, though the body is likely plastic/rubber)
UPC	855239006732

## TROUBLESHOOTING

---

- **Suction cup not holding:** Ensure the surface is clean, dry, and smooth. Wash the suction cup with water if it appears dirty or has lost its stickiness.
- **Light not staying in position:** Tighten the adjustment knob on the ball head to secure the Lume Cube at the desired angle.

## WARRANTY AND SUPPORT

---

For warranty information or technical support, please refer to the official LUME CUBE website or contact their customer service directly. Keep your purchase receipt for warranty claims.
