4. MAINTENANCE

Proper care and maintenance will extend the life and appearance of your Serta Rane futon.

4.1 Cleaning Instructions

- **Regular Vacuuming:** Vacuum the seat cushions, backrest, arms, and under the seat cushions regularly to remove dust and debris.
- **Spot Cleaning:** For spills or stains, wipe clean with a dry cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the fabric.
- **Fabric Care:** The high-quality woven fabric is designed for easy care. Refer to the upholstery cleaning code 'X' for specific instructions, which typically means professional cleaning is recommended for overall cleaning, or dry cleaning for spot treatment.

5. TROUBLESHOOTING

If you encounter any issues with your Serta Rane futon, refer to the following common troubleshooting tips:

- **Difficulty Converting:** Ensure the backrest is pushed fully forward to disengage the locking mechanism before attempting to recline or raise it. Do not force the mechanism.
- **Stability Issues:** Verify that all legs are securely attached and tightened. Check for any loose screws or connections. Ensure the futon is placed on a flat, even surface.
- **Comfort Concerns:** The futon features high-density foam. Allow up to 24 hours for cushions to fully expand after unpacking. For extended use as a bed, consider adding a mattress topper for additional comfort.
- **Weight Capacity:** The futon has a maximum weight capacity of 450 pounds. Exceeding this limit may compromise the structural integrity and safety of the product.
