

## LEGAMI ABL0001

# Legami Adjustable LED Reading Light

**Brand:** LEGAMI | **Model:** ABL0001

## INTRODUCTION

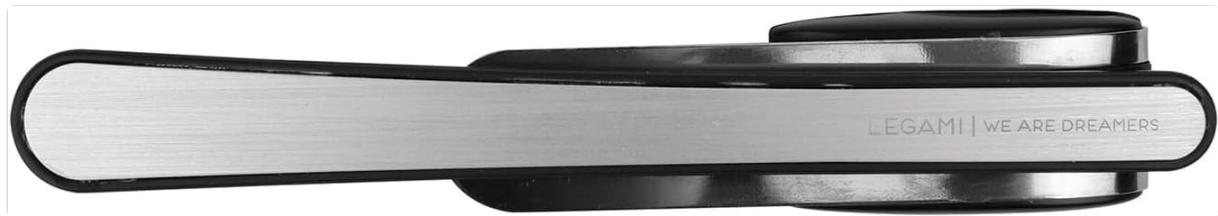

Thank you for choosing the Legami Adjustable LED Reading Light. This manual provides essential information for the safe and efficient use of your new device. Please read these instructions carefully before use and retain them for future reference.

## PRODUCT OVERVIEW

The Legami Adjustable LED Reading Light is a compact and portable illumination device designed for reading in various environments. Its adjustable design allows for flexible positioning, providing optimal light where you need it.

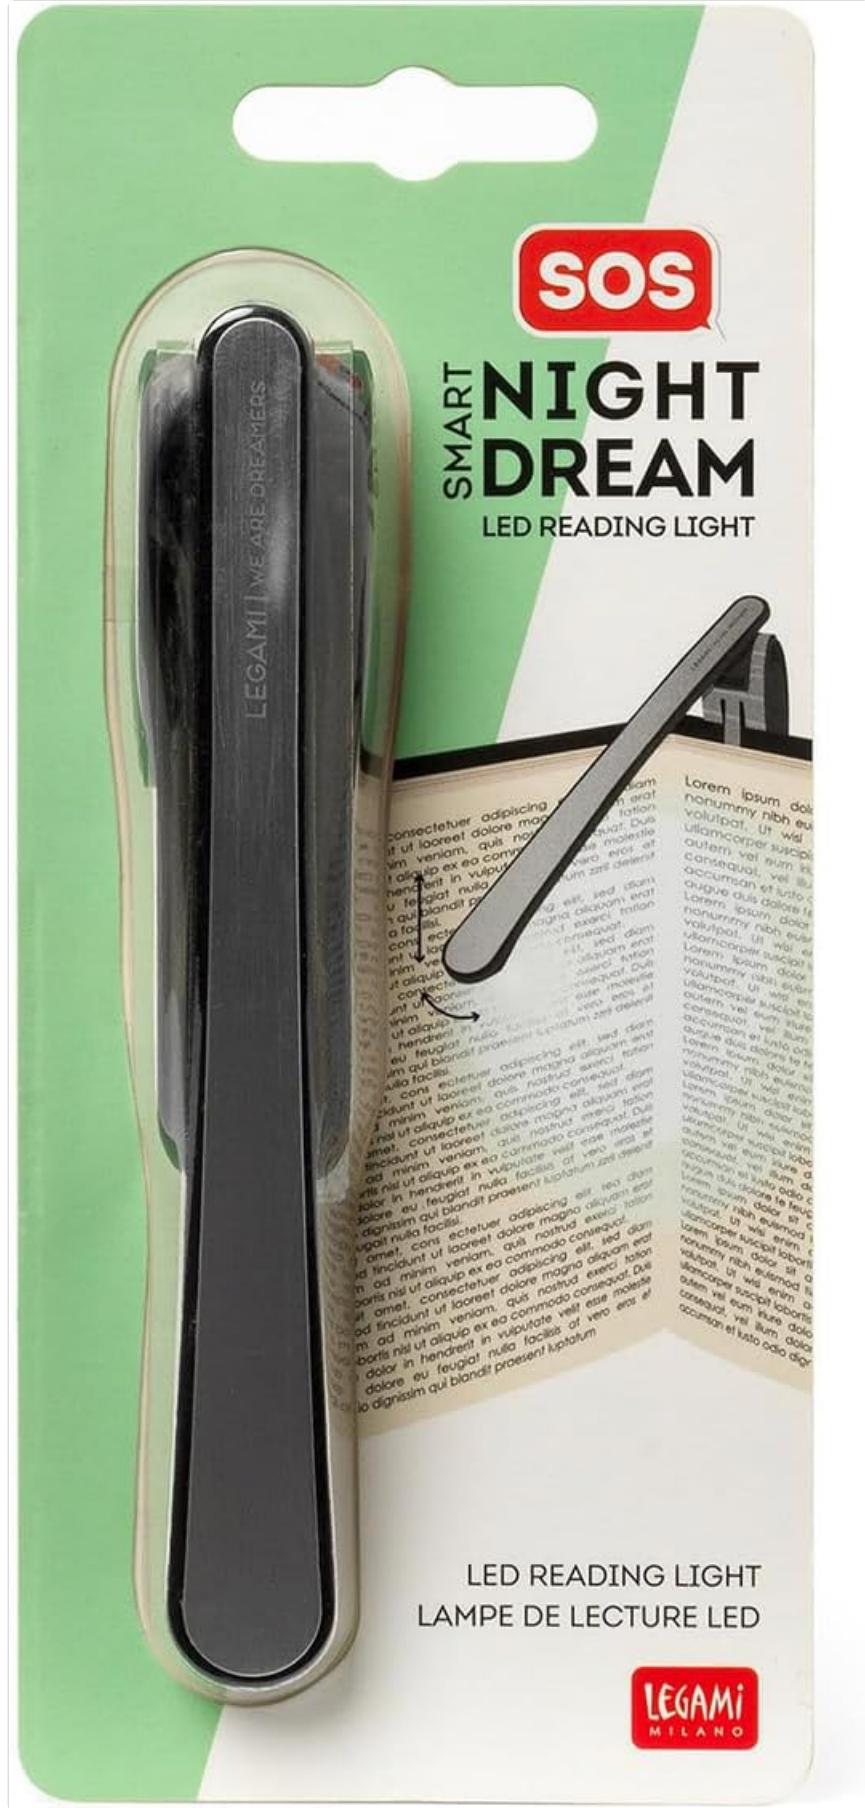

**Figure 1:** The Legami LED Reading Light in its folded, compact position, ready for storage or transport. The main body is black with a silver-colored metallic strip.

**Figure 2:** A side profile of the reading light when folded. This view highlights its slim design, making it easy to carry.

**Figure 3:** The reading light fully extended and ready for use. The adjustable arm and clip mechanism are visible, designed to attach to books or other surfaces.

**Figure 4:** The product's retail packaging, showing the "Smart Night Dream LED Reading Light" branding and an illustration of its use.

## SETUP

1. **Unboxing:** Carefully remove the reading light from its packaging. Ensure all components are present

and undamaged.

- Power Source:** The device is typically powered by internal batteries. If applicable, ensure the batteries are charged or insert new batteries according to the polarity markings. (Note: Specific battery type and charging instructions are not provided in the product details. Refer to product packaging for details if available.)
- Attachment:** The reading light features a clip mechanism. Gently open the clip and attach it to the desired surface, such as a book cover, e-reader, or thin table edge. Ensure the clip is securely fastened.
- Positioning:** Adjust the flexible arm of the light to direct the LED beam onto your reading material. The arm can be bent and rotated to achieve optimal illumination.

## OPERATION

- Turning On/Off:** Locate the power button, usually on the base or head of the light. Press the button once to turn the light on. Press it again to turn the light off.
- Adjusting Brightness (if applicable):** Some models may feature multiple brightness settings. If available, repeatedly press the power button or a dedicated brightness button to cycle through the different light levels.
- Optimal Positioning:** While reading, periodically adjust the light's arm to ensure the light is evenly distributed across the page and to minimize glare.

## MAINTENANCE

- Cleaning:** To clean the reading light, gently wipe the surface with a soft, dry, or slightly damp cloth. Do not use abrasive cleaners or solvents, as these can damage the finish.
- Storage:** When not in use, fold the reading light into its compact position and store it in a cool, dry place away from direct sunlight and extreme temperatures.
- Battery Care:** If the device uses rechargeable batteries, ensure it is charged regularly to maintain battery health. For non-rechargeable batteries, replace them as needed. Remove batteries if the device will not be used for an extended period to prevent leakage.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	Low or depleted battery. Incorrect battery insertion. Faulty power button.	Charge the battery or replace with new ones. Ensure batteries are inserted with correct polarity. Contact customer support if the button is unresponsive.
Light is dim or flickers.	Low battery power.	Recharge or replace the batteries.
Clip does not hold securely.	Surface is too thick or too thin for the clip. Clip mechanism is damaged.	Ensure the surface thickness is within the clip's capacity. Avoid forcing the clip onto overly thick objects. If damaged, contact support.

## SPECIFICATIONS

- **Brand:** LEGAMI
- **Model:** ABL0001
- **Color:** Multicolor (as per product description, actual product appears black/silver)
- **Material:** Durable Plastic and Metal (Visual assessment, overriding "Wood" from source)
- **Style:** Modern
- **Light Type:** LED
- **Mounting Type:** Clip-on
