Detailed view of the Kohler Purist showerhead, highlighting its dimensions for installation planning: 5 1/2 inches (140 mm) in width and 4 5/16 inches (110 mm) in depth.

Setup and Installation

The Kohler Purist showerhead is designed for straightforward installation as a wall-mount unit. It connects to a standard 1/2" 14 NPT connection.

Required Components (Sold Separately):

- Shower arm and flange
- Shower trim kit

For a cohesive aesthetic, consider selecting shower accessories and components from the Kohler Purist, Stillness, or Composed collections.

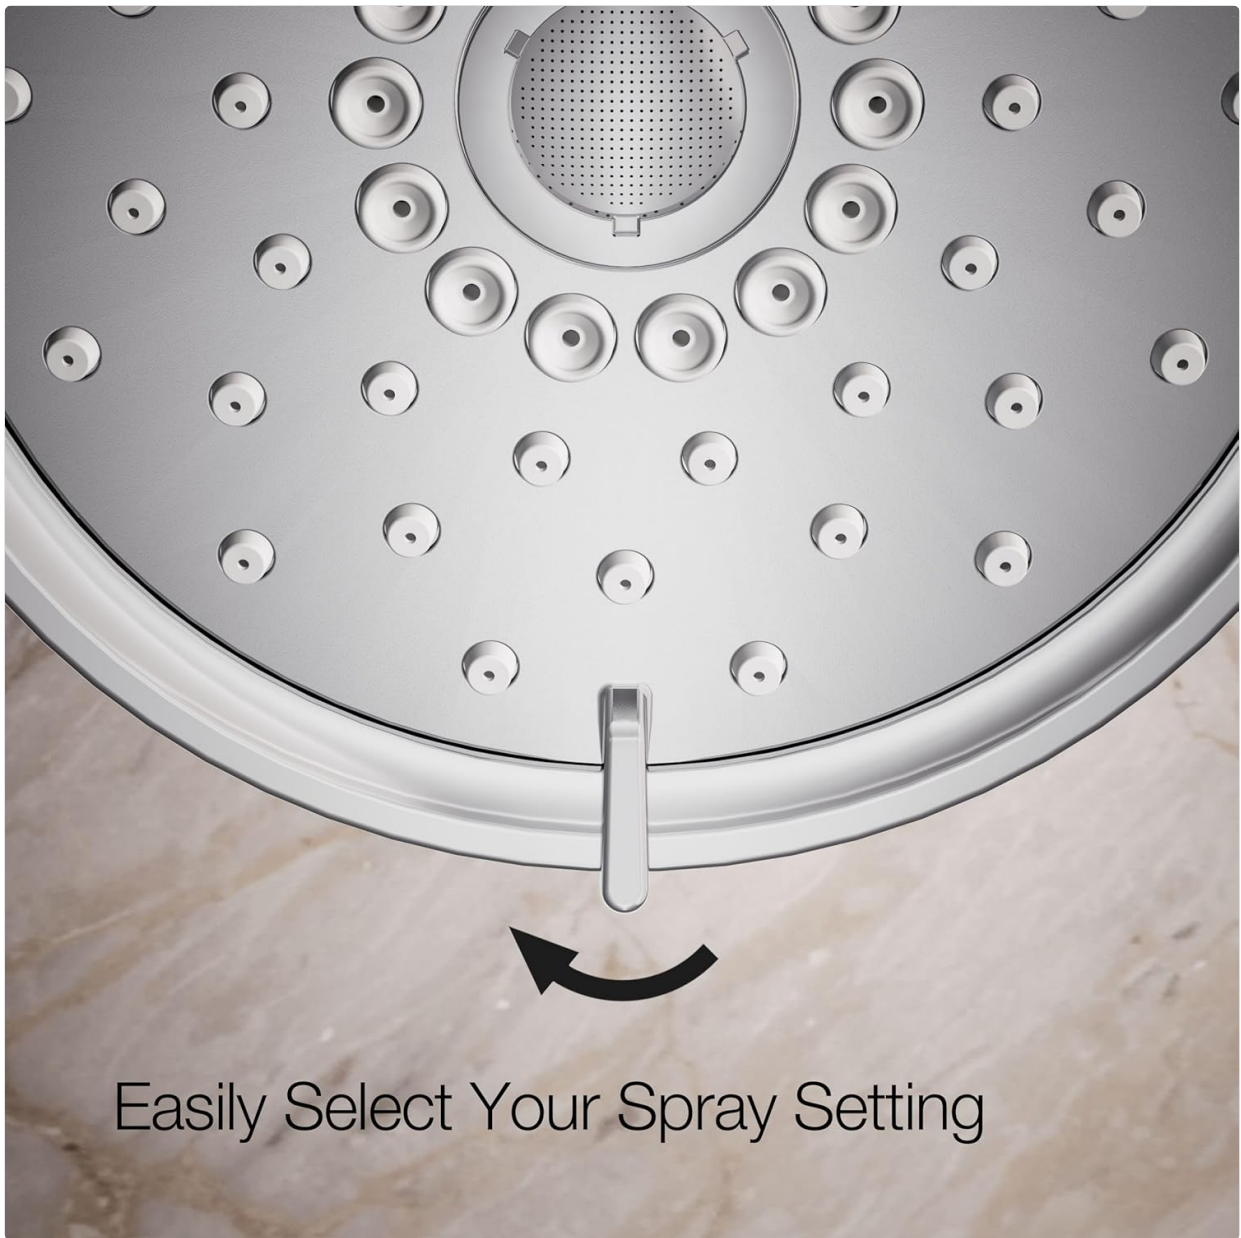

The Kohler Purist showerhead seamlessly integrated into a contemporary shower space with light-colored tiles.

Operating Instructions

Your Kohler Purist showerhead offers three distinct spray functions for a personalized showering experience:

1. **Full Coverage:** Provides a consistent and enveloping spray, ideal for daily rinsing.
2. **Pulsating Massage:** Delivers a focused, invigorating spray for muscle relaxation.
3. **Silk Spray:** A gentle, fine mist for a soothing experience.

To switch between spray modes, locate the thumb tab on the edge of the showerhead face. Rotate this tab to cycle through the available spray patterns.

Easily Select Your Spray Setting

A close-up of the showerhead's face, showing the integrated thumb tab designed for easy selection between the three distinct spray settings.

Maintenance and Care

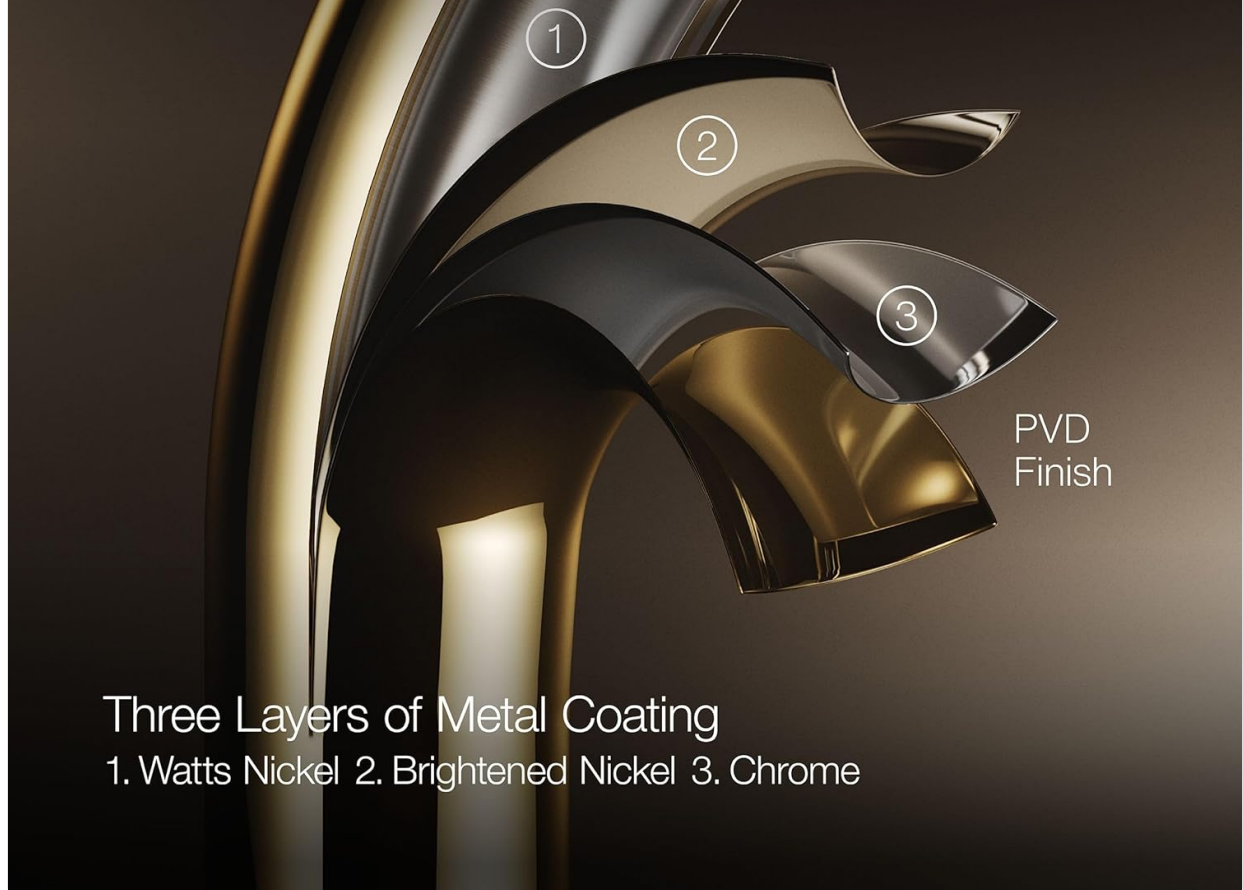

Regular cleaning will help maintain the appearance and performance of your Kohler Purist showerhead. The MasterClean sprayface is designed to resist mineral buildup, making it easy to clean.

Cleaning Recommendations:

- Wipe the showerhead regularly with a soft, damp cloth to remove soap scum and water spots.
- For mineral buildup, gently rub the MasterClean sprayface nozzles to dislodge deposits.
- For more stubborn mineral deposits, the showerhead can be soaked in a vinegar solution overnight. Ensure to rinse thoroughly after soaking.
- Avoid using abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the polished chrome finish.

Vibrant® Finishes Feature ScratchShield® Technology

Resist Tarnish, Corrosion, and Scratches

Three Layers of Metal Coating

1. Watts Nickel 2. Brightened Nickel 3. Chrome

Troubleshooting

If you experience issues with your Kohler Purist showerhead, consider the following:

- **Reduced Water Flow:** Check for mineral buildup in the sprayface nozzles. Clean as described in the Maintenance section. Ensure your water supply is fully open.
- **Leaking:** Verify that all connections are securely tightened. If leaks persist, check the condition of any washers or seals and replace if necessary.
- **Difficulty Changing Spray Modes:** Ensure the thumb tab is free of debris and can rotate smoothly. Clean any obstructions.

For persistent issues or concerns not addressed here, please refer to the Support section for contact information.
