COSOOS Bright Flashlight

COSOOS LED Tactical Flashlight User Manual

Model: Bright Flashlight

1. INTRODUCTION

This manual provides comprehensive instructions for the safe and effective use of your COSOOS LED Tactical Flashlight. Please read this manual thoroughly before operating the device and retain it for future reference.

Image 1.1: COSOOS LED Tactical Flashlight with included holster.

2. WHAT'S IN THE BOX

Verify that all items are present upon unpacking:

- 1 x COSOOS Tactical Flashlight (Battery not included)
- 1 x Flashlight Holster
- 1 x User Guide (This document)

3. SETUP

3.1 Battery Installation

The COSOOS LED Tactical Flashlight operates on either a 4.2V rechargeable lithium-ion battery or three AAA batteries. Batteries are not included with this product.

1. Unscrew the tail cap of the flashlight by turning it counter-clockwise.
2. Insert the battery (or batteries) according to the polarity indicators (+/-) inside the battery compartment. If using AAA

batteries, ensure they are placed into the provided AAA battery holder first.

3. Screw the tail cap back on clockwise until it is securely tightened.

Image 3.1: Exploded view illustrating the flashlight components, including the battery compartment and tail cover.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off and Mode Selection

The flashlight features a tail-cap button for power control and mode cycling.

- To turn the flashlight **ON** or **OFF**, press the tail button firmly until you hear a click.
- To cycle through the 5 light modes (High, Medium, Low, Strobe, SOS), gently press the tail button without clicking it completely. Each gentle press will advance to the next mode.

Image 4.1: Illustration of the 5 light modes and the tail switch operation for power and mode selection.

4.2 Zoom Function

The flashlight's head is zoomable, allowing adjustment between a focused spotlight and a wide floodlight beam.

- To adjust the beam, slide the head of the flashlight forward or backward.
- Sliding the head **out** (extending it) will narrow the beam into a spotlight for long-range illumination.
- Sliding the head **in** (retracting it) will widen the beam into a floodlight for illuminating a broad area.

Image 4.2: Visual representation of the zoomable function, showing the flashlight in both zoom-in (spotlight) and zoom-out (floodlight) configurations.

5. MAINTENANCE

- **Cleaning:** Wipe the flashlight with a soft, damp cloth to remove dirt or debris. Do not use abrasive cleaners or solvents.
- **Water Resistance:** The flashlight features a waterproof design. Ensure all parts, especially the tail cap, are securely tightened to maintain water resistance. Avoid submerging the flashlight for extended periods.
- **Battery Care:** Remove batteries if the flashlight will not be used for an extended period to prevent leakage. Store batteries in a cool, dry place.
- **Storage:** Store the flashlight in a cool, dry environment away from direct sunlight and extreme temperatures.

ALL WEATHER DURABILITY

IP67-rated tolerates extreme conditions

Image 5.1: The flashlight's waterproof capability, shown with water droplets on its surface.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	Batteries are dead or incorrectly inserted. Tail cap is loose. Damaged switch.	Replace batteries or ensure correct polarity. Tighten the tail cap securely. Contact customer support if switch is damaged.
Light output is dim or flickers.	Low battery power. Loose connections.	Replace or recharge batteries. Ensure tail cap and head are tightened.

Problem	Possible Cause	Solution
Cannot change light modes.	Switch not being pressed gently enough. Damaged switch.	Practice gentle presses on the tail button. Contact customer support if switch is damaged.
