IMPORTANT SAFETY INFORMATION

Always follow basic safety precautions when using this appliance to reduce the risk of fire, electric shock, or injury. This appliance is intended for household use only.

- Ensure proper ventilation in the kitchen area during operation.
- Do not store flammable materials near the gas stove.
- Keep children and pets away from the appliance during use.
- Always use appropriate cookware for the burners.
- Do not leave cooking unattended.
- In case of a gas leak, immediately turn off the gas supply, open windows, and do not operate any electrical switches.
- Ensure the gas stove is installed on a stable, level surface.

SETUP AND INSTALLATION

Proper installation is crucial for the safe and efficient operation of your gas stove. It is recommended that installation be performed by a qualified technician.

Unpacking

- Carefully remove the gas stove from its packaging.
- Check for any visible damage. If damaged, do not use and contact customer service.

- Verify that all components listed in the "What's in the Box" section are present.

Placement

- Place the stove on a flat, stable, and heat-resistant surface.
- Ensure adequate clearance from walls and overhead cabinets.
- The stove features skid-proof legs for stability.

Gas Connection

- Connect the gas stove to a suitable LPG cylinder or piped natural gas supply using a certified gas hose and regulator.
- Ensure all connections are tight and leak-free. Use soapy water to check for leaks (bubbles indicate a leak).
- The stove is equipped with a 360-degree revolving nozzle for flexible gas pipe connection.

OPERATING INSTRUCTIONS

This gas stove features manual ignition and user-friendly controls.

Igniting a Burner

1. Ensure the gas cylinder valve is open.
2. Place your cookware on the pan stand over the desired burner.
3. Push and turn the corresponding control knob counter-clockwise to the 'ON' position.
4. Immediately bring a lit matchstick or gas lighter to the burner to ignite the flame.
5. Adjust the flame intensity by rotating the knob between the 'HIGH' and 'LOW' settings.

Turning Off a Burner

- Turn the control knob clockwise to the 'OFF' position until the flame extinguishes.
- After cooking, ensure all burner knobs are in the 'OFF' position and close the main gas cylinder valve.

MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure the longevity and optimal performance of your gas stove.

Daily Cleaning

- Allow the stove to cool completely before cleaning.
- Wipe the glass top with a soft cloth and mild detergent. The toughened glass is scratch-resistant and easy to clean.

- Clean the integrated drip tray regularly to prevent accumulation of spills.
- Wipe the powder-coated pan stands with a damp cloth.

Burner Maintenance

- Periodically remove the brass burners and clean them to ensure clear gas flow.
- Use a soft brush or cloth to remove any food residue or blockages from the burner holes.
- Ensure burners are completely dry before placing them back on the stove.

TROUBLESHOOTING

Refer to this section for common issues and their solutions. If the problem persists, contact customer service.

Problem	Possible Cause	Solution
Burner not igniting	Gas cylinder empty, gas valve closed, clogged burner holes, loose gas connection.	Check gas supply, open gas valve, clean burner holes, check gas hose connection.
Irregular flame	Clogged burner holes, improper burner placement.	Clean burner holes, ensure burner caps are correctly seated.
Gas smell	Gas leak.	Immediately turn off gas supply, ventilate area, do not operate electrical switches, contact gas provider or technician.

SPECIFICATIONS

- **Model:** Butterfly_L3892A00000_Black
- **Brand:** Butterfly
- **Colour:** Black
- **Material:** Toughened Glass (6mm ultra-thick)
- **Heating Elements:** 2 Burners
- **Product Dimensions:** 60D x 29W x 11H Centimeters
