› RENPHO Air Purifier Replacement Filter Set (Models RP-AP001, RP-AP001S, RP-AP002) - Instruction Manual

RENPHO RP-AP001, RP-AP001S, RP-AP002

RENPHO Air Purifier Replacement Filter Set Instruction Manual

For Models: RP-AP001, RP-AP001S, RP-AP002

PRODUCT OVERVIEW

This replacement filter set is designed for RENPHO True HEPA air purifiers, specifically models RP-AP001, RP-AP001S, and RP-AP002. The set includes one Charcoal Filter, one Activated Carbon Filter, and one True HEPA Filter. These filters are crucial for maintaining optimal air quality by capturing various airborne pollutants.

Key Features:

- **Certified Compatibility:** Designed to fit RENPHO True HEPA air purifier models RP-AP001, RP-AP001S, and RP-AP002.
- **Multi-Stage Filtration:** Includes a Charcoal Filter, Activated Carbon Filter, and True HEPA Filter for comprehensive air purification. (Note: Pre-Filter is not included in this specific set).
- **Sealed for Protection:** Filters are properly sealed to protect their lifespan and ensure effectiveness upon installation.
- **Filter Replacement Indicator:** Air purifiers compatible with these filters feature an indicator light that signals when replacement is due.
- **Safety & Certifications:** Designed without UV-C or harmful Ozone. Intertek ETL/CARB (California Air Resources Board)/CA PROP 65 certified for safety.

SETUP AND INSTALLATION

Follow these steps to correctly install the replacement filters in your RENPHO air purifier.

1. **Preparation:** Before installing, ensure the air purifier is unplugged. Carefully remove the plastic packaging from all new filters.

Remove Bags Before Installing

Image: A warning sign and hands removing the plastic bag from a new filter, emphasizing the importance of this step before installation.

2. **Remove Old Filters:** Open the filter compartment of your RENPHO air purifier. Remove the used filters. Dispose of them responsibly.
3. **Install True HEPA Filter:** Place the new True HEPA filter into the purifier first. Ensure it is seated correctly.

Step 1:Place HEPA filter into purifier first.

Step 2:Place Charcoal filter & Activated Carbon Filter into air purifier .

Step 3:Push the front cover against the body of the appliance.

Step 4:Reset the filters lifetime sensor ,press and hold button for 3 seconds.

MAINTENANCE

Regular filter replacement is essential for maintaining the performance and efficiency of your RENPHO air purifier. The filter replacement indicator light will flash when it's time to change the filters.

- **Replacement Frequency:** It is recommended to replace the air filters every 6 months under normal usage conditions. This duration may vary based on air quality and usage intensity.
- **Cleaning Pre-Filter:** While this set does not include a pre-filter, if your air purifier model has a washable pre-filter, clean it regularly according to your air purifier's specific instructions to extend the life of the main filters.
- **Disposal:** Dispose of used filters in regular household waste.

TROUBLESHOOTING

If your air purifier is not functioning as expected after filter replacement, consider the following:

- **Filter Packaging:** Ensure all plastic packaging has been removed from the new filters.
- **Correct Placement:** Verify that the filters are inserted in the correct order and orientation, and are seated firmly in the compartment.

- **Cover Security:** Confirm that the air purifier's cover is securely closed and latched.
- **Filter Reset:** Make sure the filter lifetime sensor has been reset by pressing and holding the designated button for 3 seconds.
- **Power Connection:** Check that the air purifier is properly plugged into a working power outlet.

For further assistance, refer to the main air purifier's instruction manual or contact RENPHO customer support.
