MAAX 105742-000-001

MAAX Optik 105742-000-001 Acrylic Freestanding Bathtub User Manual

PRODUCT OVERVIEW

The MAAX Optik 105742-000-001 is a sleek, two-piece freestanding bathtub designed with a combination of straight and curvaceous lines. It features an inclined backrest, curvaceous inset armrests, and a deep bathing well for enhanced comfort. This model includes a center drain and four adjustable leveling legs for stable installation. It is compatible with above-floor rough installation and F2 drain systems. The bathtub is constructed from durable acrylic and comes in a white finish.

Key Features

- Sleek 2-piece freestanding design combining straight and curvaceous lines.
- Inclined backrest for comfortable reclining.
- Curvaceous inset armrests for added support.
- Deep bathing well for immersive soaking.
- Features a center drain.
- Equipped with 4 adjustable leveling legs for stability.
- Compatible with above-floor rough installation and F2 drain.

SETUP & INSTALLATION

Proper installation is crucial for the functionality and longevity of your MAAX Optik bathtub. It is recommended that installation be performed by a qualified professional plumber and/or contractor. Ensure the floor can support the weight of the tub filled with water and a bather.

Adjustable Leveling Legs

The bathtub is equipped with four adjustable leveling legs. These legs allow for precise leveling of the tub on uneven surfaces, ensuring stability and proper drainage. Adjust each leg individually until the tub is level and firmly supported on all points.

Drain Compatibility

This model is designed for above-floor rough installation and is compatible with F2 drain systems. Consult your plumbing professional to ensure your existing or planned plumbing setup meets these requirements.

OPERATING INSTRUCTIONS

To use your MAAX Optik bathtub, ensure the drain stopper is securely closed. Fill the tub with water to your desired level and temperature. The design of the tub is optimized for a comfortable bathing experience.

Deep Bathing Well & Inclined Backrest

The deep bathing well allows for full immersion, while the inclined backrest and curvaceous armrests provide ergonomic support, promoting relaxation during your bath. Position yourself comfortably against the inclined backrest for optimal support.

Center Drain

The center drain design allows for efficient water drainage from the tub. After use, open the drain stopper to empty the tub. Ensure no debris obstructs the drain for smooth operation.

MAINTENANCE

Regular cleaning and proper maintenance will help preserve the appearance and functionality of your acrylic bathtub. Always use non-abrasive cleaners and soft cloths to avoid scratching the surface.

Cleaning the Bathtub

- Use mild, non-abrasive liquid cleaners.
- Avoid harsh chemicals, abrasive pads, or scouring powders, as these can damage the acrylic finish.
- Rinse the tub thoroughly with clean water after cleaning to remove any cleaner residue.
- For stubborn stains, consult the manufacturer's guidelines or a specialized acrylic cleaner.

Preventing Damage

- Avoid dropping heavy or sharp objects into the tub.
- Do not use bath mats with suction cups, as they can trap dirt and potentially damage the surface over time.
- Ensure proper ventilation in the bathroom to prevent mold and mildew buildup.

TROUBLESHOOTING

If you encounter any issues with your MAAX Optik bathtub, refer to the following common troubleshooting tips. For more complex problems, contact a qualified professional or MAAX customer support.

Water Drainage Issues

- **Slow Drainage:** Check the center drain for any hair or debris accumulation. Clear any obstructions.
- **Leaking:** Ensure all plumbing connections are tight and properly sealed. If leaks persist, contact a plumber.

Stability Issues

- **Wobbling Tub:** Re-adjust the four leveling legs to ensure the tub is stable and evenly supported on the floor.

SPECIFICATIONS

Feature	Specification
Brand	MAAX
Model Number	105742-000-001
