## Key Features:

- **Z-Wave Plus Compatibility:** Integrate with smart home or security systems like Samsung SmartThings or Ring Alarm for remote lock/unlock functionality.
- **Touchscreen Keypad:** Fingerprint-resistant touchscreen for keyless entry.
- **Access Codes:** Manage up to 30 unique access codes for family, friends, or service providers.
- **Built-in Alarm:** Alerts to potential door attacks.
- **Easy Installation:** Designed for simple installation with a screwdriver, featuring Snap 'n Stay technology.
- **Battery Operated:** Uses 4 AA batteries with a low battery indicator and backup key.
- **Enhanced Security:** Secure encryption with S2 Security protocol.

## 2. SETUP AND INSTALLATION

The Schlage Connect Smart Deadbolt is designed for straightforward installation on standard doors. No hardwiring is required, making it suitable for DIY installation.

## Installation Steps:

1. **Prepare the Door:** Ensure your door meets the standard specifications for deadbolt installation.
2. **Install the Deadbolt:** Utilize the unique Snap 'n Stay technology to hold the deadbolt in place, freeing both hands for the next steps.
3. **Attach Keypad and Interior Assembly:** Secure the exterior keypad and interior assembly to the door using a screwdriver.
4. **Insert Batteries:** Install the 4 AA batteries provided.
5. **Test Operation:** Verify that the deadbolt operates smoothly both manually and via the keypad.

## Voice Control:

If integrated with a compatible Z-Wave smart home system and voice assistant (e.g., Amazon Alexa, Google Assistant), you can lock and unlock your door using voice commands. Ensure your voice assistant device is properly configured with your smart home hub.

## 4. MAINTENANCE

### Battery Replacement:

The deadbolt features a low battery indicator that provides weeks of warning before the batteries fully deplete. To replace, remove the interior cover and insert 4 new AA batteries. A backup key is provided to prevent lockouts if batteries die unexpectedly.

### Cleaning:

Clean the touchscreen and exterior components with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the finish or electronic components. The fingerprint-resistant finish helps maintain a clean appearance.

## 5. TROUBLESHOOTING

- **Keypad Not Responding:** Check battery levels. If the batteries are low or dead, replace them.
- **Lock Not Engaging/Disengaging:** Ensure the door is properly aligned and the deadbolt can extend fully into the strike plate. Check for any obstructions.
- **Smart Home Connectivity Issues:** Verify your Z-Wave hub is powered on and within range. Consult your smart home system's manual for pairing and troubleshooting Z-Wave devices.
- **Incorrect Code Entry:** If the lock repeatedly rejects your code, ensure you are entering the correct sequence and that the code is still active.
