HOT TOOLS HT7122BG

HOT TOOLS Pro Artist Black Gold Ionic 1 Inch Flat Iron User Manual

Model: HT7122BG | Brand: HOT TOOLS

INTRODUCTION

The HOT TOOLS Pro Artist Black Gold Ionic 1 Inch Flat Iron is a versatile styling tool designed for professional results. Its Black Gold styling surface, a blend of 24k gold, titanium, and ceramic with a Micro-Shine finish, ensures even heat distribution, smooth gliding, and reduced friction for sleek, shiny hair with less frizz. This flat iron features Special Pulse Technology for rapid heat-up and consistent temperature maintenance up to 455 degrees F, with a digital display for precise control. Its rounded plate edges allow for diverse styling, from straightening to creating curls, waves, and pin curls. Additional features include a soft-touch outer finish for comfortable grip, automatic two-hour shut-off for safety, and universal dual voltage for travel convenience. A heat-resistant glove is included.

The HOT TOOLS Pro Artist Black Gold Ionic 1 Inch Flat Iron, shown with its included heat-resistant glove.

Key Features:

- **Long-Lasting Styles:** Create salon quality, smooth and sleek styles with 1 Inch Wide Floating Black Gold plates for high-gloss finish with less frizz.
- **Premium Black Gold Technology:** Emulates even heat distribution of 24K gold, combined with titanium and ceramic with a Micro-Shine finish for long-lasting, defined results.
- **Versatile Styling:** Ideal for sleek straight hair, effortless waves, curls, and pin curls due to rounded edges.
- **Smart Temperature Control:** Features a rotating dial, easy-to-read digital LED display, and an audible tone when desired temperature is reached.
- **Travel-Friendly:** Universal dual voltage, auto shut-off, and includes a heat-resistant glove. Variable heat settings up to 455°F.
- **Smooth Results:** Advanced ion generator for maximum ion output and silky smooth hair.
- **Stylist-Preferred:** Recognized as a top brand by professionals.

SETUP INSTRUCTIONS

Follow these steps to prepare your flat iron for use:

1. Plug in the flat iron to a suitable power outlet.
2. Allow the flat iron to heat up to your desired temperature. The digital LED display will show the current temperature.
3. Ensure your hair is clean, dry, and free of tangles before styling.
4. For optimal results and hair protection, apply a heat protectant spray evenly throughout your hair.

OPERATING INSTRUCTIONS

Temperature Settings:

The flat iron offers variable heat settings up to 455°F (235°C). Adjust the temperature using the rotating dial located at the base of the handle. The digital LED display provides a constant read-out of the current temperature. An audible tone will sound when the desired temperature is reached.

The digital LED display allows for precise temperature control.

Styling Hair:

This versatile tool can be used for straightening, curling, and waving. Always ensure your hair is dry before using the flat iron.

- **For Straightening:**

- a. Section your hair into manageable portions.
- b. Place a section of hair between the Black Gold plates, close to the roots.
- c. Gently glide the flat iron smoothly along each section, from roots to ends. The Micro-Shine finish plates are designed for effortless gliding with less pulling.

- **For Curling or Waving:**

- a. Section your hair.
- b. Place a section of hair between the plates.
- c. As you glide the flat iron down the hair section, twist the iron to create curls or waves. The rounded plate edges facilitate this versatile styling.

The flat iron glides smoothly for sleek, straight results.

Rounded plate edges allow for creating beautiful curls and waves.

MAINTENANCE

To ensure the longevity and optimal performance of your flat iron, regular cleaning and proper storage are essential:

- Always unplug the appliance and allow it to cool completely before cleaning.
- Wipe the plates and exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
- Ensure the flat iron is completely dry before storing.
- Store the appliance in a cool, dry place, away from moisture. Use the locking mechanism to keep the plates closed for compact storage.

TROUBLESHOOTING

If you encounter any issues with your HOT TOOLS flat iron, consider the following common solutions:

- **Appliance not turning on:** Ensure the flat iron is securely plugged into a working power outlet. Check if the power button is pressed firmly.
- **Not heating up:** Verify the temperature setting is not at the lowest point. Allow sufficient time for the iron to reach the set temperature, as indicated by the digital display and audible tone.
- **Hair pulling or snagging:** Ensure your hair is thoroughly detangled before use. The Micro-Shine plates are designed to glide smoothly, so excessive pulling may indicate tangles or too large a hair section.
- **Automatic shut-off:** The flat iron features an automatic two-hour shut-off for safety. If the iron turns off unexpectedly, it may be due to this feature. Simply turn it back on if needed.
