

Bella Depot Bella Depot01

Bella Depot 36-inch Gold Retractable Ceiling Fan with Lights and Remote User Manual

Model: Bella Depot01

1. INTRODUCTION

Thank you for purchasing the Bella Depot 36-inch Gold Retractable Ceiling Fan with Lights and Remote. This manual provides important information for the safe installation, operation, and maintenance of your new ceiling fan. Please read this manual thoroughly before installation and keep it for future reference.

Safety Information

- Ensure power is disconnected at the circuit breaker before installation or maintenance.
- All wiring must be in accordance with national and local electrical codes.
- Consult a qualified electrician if you are unsure about wiring procedures.
- Mount the fan to a ceiling joist or a suitable support structure capable of supporting the fan's weight.
- Do not bend blade holders during installation or cleaning.
- Keep children away from the fan during operation.

2. PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Ceiling Fan Motor Housing with Integrated LED Light
- Retractable Blades (3)
- Downrods (5-inch and 10-inch options)
- Canopy
- Mounting Bracket
- Remote Control
- Hardware Pack (screws, wire nuts, etc.)
- Instruction Manual

SUPER QUIET

Say goodbye to the traditional humming of fans. The ultra-quietfan accompanies you to sleep comfortably.

3. SPECIFICATIONS

Brand	Bella Depot
Model Name	Bella Depot01
Size	36 inches
Color	Gold
Product Dimensions	36"L x 36"W x 8"H
Material	Acrylic (Blades), Plastic (Shade)
Light Source Type	LED
Wattage	55 watts
Brightness	3600 Lumen

Voltage	110 Volts
Control Method	Remote Control
Special Feature	LED Light, Retractable Blades, Silent DC Motor, Timing Options
Indoor/Outdoor Usage	Indoor
Certifications	ETL, UL

Ceiling Fan Size & Details

4. INSTALLATION INSTRUCTIONS

Before You Begin: Ensure the power supply is turned off at the circuit breaker. Read all instructions carefully before proceeding.

Tools Required:

- Phillips screwdriver

- Flathead screwdriver
- Adjustable wrench
- Wire strippers
- Electrical tape
- Ladder

Installation Steps:

1. **Mounting Bracket Installation:** Secure the mounting bracket to the ceiling outlet box. Ensure the outlet box is securely fastened to a building structure (e.g., a ceiling joist) and can support the fan's weight.
2. **Downrod Assembly:** Choose the desired downrod (5-inch or 10-inch). Feed the fan wires through the downrod. Insert the downrod into the fan motor housing and secure it with the provided pin and screw.
3. **Hanging the Fan:** Carefully lift the fan assembly and hang it on the mounting bracket hook. This will free your hands for wiring.
4. **Wiring Connections:** Connect the fan's electrical wires to the household supply wires according to local electrical codes. Typically, this involves connecting:
 - Green/Ground wire from fan to bare copper/ground wire from house.
 - White/Neutral wire from fan to white/neutral wire from house.
 - Black/Live wire from fan to black/live wire from house.

Use the provided wire nuts and secure connections with electrical tape.

5. **Canopy Installation:** Slide the canopy up to the ceiling and secure it to the mounting bracket with the screws. Ensure all wires are tucked neatly inside the canopy.
6. **Blade Attachment:** The blades are retractable and integrated into the fan housing. No separate blade attachment is required.
7. **Light Kit Installation:** The LED light is integrated. Ensure all connections are secure.

Note: Professional installation is recommended if you are not familiar with electrical wiring.

5. OPERATION

Your Bella Depot ceiling fan is operated via the included remote control. Ensure a 23A 12V battery is installed in the remote (battery not included).

Remote Control Functions:

- **Fan ON/OFF:** Turns the fan on or off.
- **Fan Speed Control:** Adjusts between 6 fan speeds.
- **Light ON/OFF:** Turns the LED light on or off.
- **Color Temperature Change:** Cycles through 3 color temperatures (Warm Light, Warm White, White Light). Each time the light is turned on, it may cycle to the next color temperature.
- **Brightness Adjustment:** Dims or brightens the LED light.
- **Timer Function:** Sets the fan to turn off after 1, 2, 4, or 8 hours.
- **Forward/Reverse Function:** Changes the direction of blade rotation.

Image: Illustration demonstrating the three available light color temperatures: Warm Light, Warm White, and White Light, as controlled by the remote.

Forward and Reverse Function:

The fan features a forward and reverse function to optimize air circulation for different seasons:

- **Forward (Summer Mode):** Blades rotate counter-clockwise, pushing air downwards to create a cooling breeze.
- **Reverse (Winter Mode):** Blades rotate clockwise, drawing air upwards to circulate warm air trapped near the ceiling.

Image: Diagram showing the fan's forward mode for summer (airflow down) and reverse mode for winter (airflow up), optimizing room temperature.

6. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Periodically clean the fan with a soft, damp cloth. Do not use abrasive cleaners or solvents, as they may damage the finish or blades. Ensure power is off before cleaning.
- **Blade Inspection:** Check the retractable blades for any dust accumulation. Clean gently if necessary.
- **Tightness of Screws:** Periodically check all screws for tightness. Due to natural movement, some connections may become loose over time.
- **Light Source:** The LED light is integrated and designed for long life. If replacement is needed, contact customer support.

7. TROUBLESHOOTING

Before contacting customer service, please refer to the following troubleshooting guide:

Problem	Possible Cause	Solution
Fan does not start	<ul style="list-style-type: none"> No power to the fan. Loose wire connections. Remote control battery is dead or incorrectly installed. 	<ul style="list-style-type: none"> Check circuit breaker and wall switch. Verify all wire connections are secure (ensure power is off first). Replace remote battery (23A 12V) and ensure correct polarity.
Fan makes noise during operation	<ul style="list-style-type: none"> Loose screws on fan housing or mounting bracket. Fan not properly balanced. Motor hum (normal for some DC motors). 	<ul style="list-style-type: none"> Tighten all screws. Ensure fan is securely mounted. If noise persists, contact customer support.
Light does not work	<ul style="list-style-type: none"> Loose wire connection to the light kit. LED driver issue. 	<ul style="list-style-type: none"> Check light kit wiring (ensure power is off first). Contact customer support for further assistance.
Remote control not working	<ul style="list-style-type: none"> Dead battery. Incorrect pairing (if applicable). Obstruction between remote and receiver. 	<ul style="list-style-type: none"> Replace battery (23A 12V). Ensure no obstructions. Refer to remote pairing instructions (if provided separately).

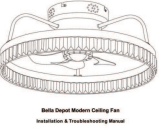

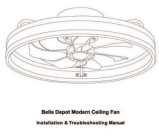

8. WARRANTY AND CUSTOMER SUPPORT

This Bella Depot ceiling fan comes with a **1-year warranty** from the date of purchase, covering manufacturing defects. Please retain your proof of purchase for warranty claims.

For technical assistance, troubleshooting beyond this manual, or warranty inquiries, please contact Bella Depot customer service:

- **Manufacturer:** Bella Depot
- **Seller:** Bella Depot (on Amazon)
- Refer to your purchase platform for direct contact information or visit the official Bella Depot store.

Note: The remote control requires a 23A 12V battery, which is not included and not covered under warranty.
