Utilitech 65W-3000K-LED-Recessed-Light

Utilitech 65W Equivalent 3000K LED Warm White Recessed Light Instruction Manual

Model: 65W-3000K-LED-Recessed-Light | Brand: Utilitech

1. INTRODUCTION

This manual provides essential information for the safe and efficient installation, operation, and maintenance of your Utilitech 65W Equivalent 3000K LED Warm White Recessed Light. Please read these instructions thoroughly before installation and retain them for future reference.

2. SAFETY INFORMATION

Always follow basic safety precautions when installing or maintaining electrical products to reduce the risk of fire, electric shock, and personal injury.

- **WARNING:** Risk of electric shock. Disconnect power at the fuse or circuit breaker before installing or servicing.
- This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
- Ensure the supply voltage is correct (120V AC).
- Do not attempt to modify the fixture. Any alterations may void the warranty and create a safety hazard.
- Suitable for use in damp or wet locations.

3. PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- 1 x Utilitech 65W Equivalent 3000K LED Recessed Light Fixture
- 1 x Medium-based screw-in adapter (pre-attached)
- Friction clips (pre-attached)
- Mounting Hardware

This image displays the Utilitech 65W Equivalent 3000K LED Warm White Recessed Light. It shows the integrated LED fixture, the attached medium-based screw-in adapter, and the friction clips designed for secure installation in compatible housings.

4. SETUP AND INSTALLATION

4.1. Before You Begin

- Turn off power at the circuit breaker or fuse box.
- Ensure the existing recessed housing is compatible (most 5-inch or 6-inch new construction and remodel housings).
- Wear appropriate safety gear, including gloves and eye protection.

4.2. Installation Steps

1. **Prepare the Housing:** Ensure the existing recessed housing is clear of debris and any old trim or bulb has been removed.
2. **Connect the Adapter:** Screw the medium-based screw-in adapter (E26 base) into the socket of your existing recessed housing. Ensure it is securely tightened.
3. **Connect the LED Fixture:** Plug the LED connector from the recessed light fixture into the adapter. Ensure a firm connection.
4. **Insert into Housing:** Gently push the LED recessed light fixture into the housing. The friction clips will engage with the housing to hold the fixture securely in place. Ensure the fixture sits flush with the ceiling.
5. **Restore Power:** Once the fixture is securely installed, restore power at the circuit breaker.
6. **Test:** Turn on the light switch to confirm proper operation.

5. OPERATING INSTRUCTIONS

The Utilitech LED Recessed Light operates like a standard light fixture. Simply use your wall switch to turn the light on or off.

Dimming Functionality: This fixture is dimmable with most 120-volt incandescent, magnetic low-voltage, or electronic low-voltage dimmers. For optimal performance, ensure your dimmer switch is compatible with LED lighting. Refer to your dimmer's instructions for specific operation.

6. MAINTENANCE

The Utilitech LED Recessed Light is designed for long-lasting, maintenance-free operation. The integrated LED is not user-replaceable.

- **Cleaning:** Ensure power is off before cleaning. Use a soft, dry, or slightly damp cloth to wipe the surface of the fixture. Do not use abrasive cleaners or solvents, as they may damage the finish or electrical

components.

- **No User-Serviceable Parts:** There are no user-serviceable parts inside this fixture. Do not attempt to open or repair the unit.

7. TROUBLESHOOTING

If you experience issues with your LED recessed light, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture.	Check circuit breaker or fuse. Ensure wall switch is on.
	Loose connection.	Turn off power, then check the screw-in adapter and LED connector for secure connections.
Light flickers or dims unexpectedly.	Incompatible dimmer switch.	Ensure dimmer is compatible with LED lighting. Replace if necessary.
	Loose wiring.	Turn off power and check all electrical connections.
Light is not flush with the ceiling.	Friction clips not fully engaged.	Gently push the fixture further into the housing until the clips fully engage.

8. SPECIFICATIONS

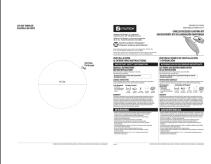

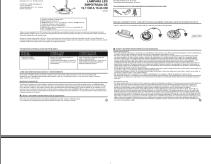

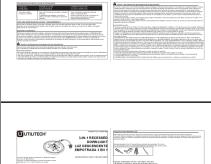

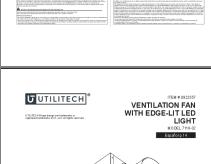

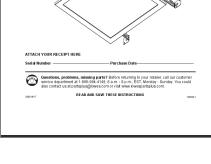

Key technical specifications for the Utilitech 65W Equivalent 3000K LED Warm White Recessed Light:

Feature	Specification
Brand	Utilitech
Model	65W-3000K-LED-Recessed-Light
Wattage	10.5 Watts (65 Watt Equivalent)
Brightness	650 Lumens
Color Temperature	3000 Kelvin (Warm White)
Voltage	120 Volts
