SAFETY INSTRUCTIONS

Please read all safety instructions carefully before operating the appliance to prevent injury or damage. Keep this manual for future reference.

- Ensure the machine is connected to a grounded power outlet with the correct voltage (230V).
- Do not immerse the machine, power cord, or plug in water or other liquids.
- Keep hands and fingers away from moving parts and hot surfaces during operation.
- Unplug the machine before cleaning or performing any maintenance.
- Do not operate the machine with a damaged cord or plug. Contact authorized service personnel for repairs.
- This appliance is intended for office use and not for household use.

SETUP

1. Unpacking

Carefully remove the coffee machine and all accessories from the packaging. Retain the packaging for future transport or storage.

2. Placement

Place the machine on a stable, level, and heat-resistant surface. Ensure adequate ventilation around the machine. The compact dimensions allow for flexible installation.

Figure 2: The WMF 1100S is designed for compact installation, fitting under standard kitchen units.

3. Power Connection

Connect the power cord to the machine and then to a suitable 230V / 10amp / Single Phase grounded

electrical outlet.

4. Water Supply

The WMF 1100S features a removable 4.5-liter water tank. Fill the tank with fresh, cold water. The machine also includes an integrated water filter. Optionally, the machine can be connected to a mains water supply.

Basic Steam (optional)
Basic Steam heats beverages, milk and milk foam via the steam wand.

Data security
Data backup (e.g. of cleaning protocols for HACCP documentation) and software updates with the help of a USB stick.

SteamJet
The patented Steamjet gets every cup to the perfect temperature in seconds.

Noise reduction
Pleasantly lower operating volume. The machine works quietly thanks to separate grinders.

WMF CoffeeConnect (optional)
Telemetric solutions enable the coffee machine to be monitored and managed from anywhere via pc, tablet or smartphone.

Hopper enhancements (optional)
Lockable bean and powder hopper enhancements double storage capacity.

Water tank
Larger 4.5 litre water tank. Optionally available: Connection to a mains water supply, as well as an integrated water filter.

Manual coffee supply
Provides the option of using a different kind of ground coffee for a particular drink e.g. decaffeinated coffee.

Topping variations (optional)
Using topping powder instead of fresh milk (less effort cooling, cleaning and storing).

2. Beverage Selection

The machine offers 8 coffee types, including Espresso, Ristretto, Cappuccino, Café Crème, Espresso Macchiato, and Caffè Latte. Simply touch the icon of your desired beverage on the display to start brewing.

Beverage variety

The WMF 1100 S has something for everyone. From hot beverages with or without milk, to those with or without milk foam. Espresso, ristretto, cappuccino, café crème, espresso macchiato or caffè latte. The beverage variety is endless.

Taste Tradition

Research and innovation have been a well-practised tradition for us since 1927. And always with the aim of further perfecting user comfort and taste experience – cup after cup.

Coffee indulgence

A perfect cup of coffee is a real kick-starter before a long office day and a very welcome afternoon push.

Milk foam paradise

From hot milk to hot milk foam, thanks to the Basic Milk System, consistency, temperature and taste are always just right.

Hot chocolate (optional)

With the integrated choc dispenser, mouth-watering chocolate beverages such as milk choc or chociatto can be enjoyed at the touch of a button and sweeten your day.
