Yaheetech YA-00090382

Yaheetech Wooden Multi-Tier Plant Stand

MODEL: YA-00090382

Introduction

Thank you for choosing the Yaheetech Wooden Multi-Tier Plant Stand. This manual provides essential information for the safe assembly, proper operation, and effective maintenance of your new plant stand. Please read these instructions carefully before assembly and retain them for future reference.

Important Safety Instructions

- Ensure all parts are present and undamaged before beginning assembly.
- Assemble the plant stand on a soft, clean surface to prevent scratches or damage to the wood.
- Do not overtighten screws during assembly, as this may damage the wood.
- Always place the assembled stand on a level and stable surface to prevent tipping.
- Do not exceed the maximum weight capacity of 30 kg (66 lbs) for the entire stand. Distribute weight evenly across all shelves.
- Keep the plant stand away from open flames, excessive heat sources, or corrosive chemicals.
- This product is not intended for climbing or supporting human weight.

Package Contents

Before assembly, verify that all components listed below are included in your package:

- Wooden Slats/Shelves (7 pieces)
- Connecting Posts/Frames
- Screws and Fasteners
- Assembly Tool (e.g., Hex Key, Screwdriver - if included)

Assembly Instructions

Follow these steps to assemble your plant stand:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, flat surface. Refer to the package contents list to ensure all pieces are present.
2. **Assemble the Base:** Identify the base frame components. Connect them according to the design, using the provided screws. Do not fully tighten screws yet.
3. **Attach Vertical Supports:** Secure the initial vertical support posts to the base frame.
4. **Build Up Tiers:** Systematically attach the shelves and subsequent vertical posts, working your way up. Ensure each shelf is correctly oriented and aligned before securing.
5. **Final Tightening:** Once all components are in place and the stand is fully assembled, go back and securely tighten all screws. Do not overtighten.

Operation

Your Yaheetech plant stand is designed to display multiple plants efficiently. To ensure optimal use and stability:

- **Placement:** Position the plant stand on a flat, stable surface. For outdoor use, choose a location that offers some protection from extreme weather conditions to prolong the life of the wood.
- **Plant Arrangement:** Place plant pots evenly across the 7 display platforms. Avoid concentrating heavy items on a single small shelf to maintain balance.
- **Weight Capacity:** The stand can support a total weight of up to 30 kg (66 lbs). Distribute the weight as evenly as possible.

Maintenance

Proper care will ensure the longevity of your wooden plant stand:

- **Cleaning:** Wipe the stand clean with a soft, damp cloth and a mild detergent. Avoid using abrasive cleaners or harsh chemicals that could damage the wood finish.
- **Wood Protection:** For outdoor use, consider applying a wood sealant or protective oil periodically to shield the fir wood from moisture, UV rays, and pests. This helps maintain its mothproof and corrosion-resistant properties.
- **Fastener Check:** Periodically inspect all screws and fasteners. Tighten them if they become loose to maintain the stand's stability.
- **Environmental Conditions:** While suitable for outdoor use, extreme weather conditions (heavy rain, direct prolonged sunlight, snow) can affect the wood. Bringing the stand indoors during harsh weather is recommended for maximum durability.

Troubleshooting

If you encounter any issues with your plant stand, refer to the following common problems and solutions:

Problem	Solution
Stand is wobbly or unstable.	Ensure all screws are securely tightened. Verify that the stand is placed on a completely level surface.
Parts do not fit together during assembly.	Double-check the assembly diagram to ensure correct orientation of parts. Do not force components; if a part doesn't fit, re-evaluate the step.
Wood appears discolored or shows signs of wear.	This can occur from prolonged exposure to moisture or direct sunlight. For outdoor use, apply a suitable wood sealant or protective oil. For indoor use, ensure it's not exposed to excessive humidity.

Product Specifications

Feature	Detail
Material	100% Fir Wood
Color	Brown
Dimensions (D x W x H)	25 cm x 97 cm x 96 cm (9.8 in x 38.2 in x 37.8 in)
Number of Shelves	7
Shelf Type	Step Shelf
Max. Load Capacity	30 kg (66 lbs) total, evenly distributed
Assembly Required	Yes
Mounting Type	Floor Mount
Item Weight	4 kg (8.8 lbs)
Model Number	YA-00090382

Warranty and Support

Warranty Information: For specific warranty details regarding your Yaheetech Wooden Multi-Tier Plant Stand, please refer to the documentation included with your purchase or visit the official Yaheetech website. Warranty terms may vary based on region and retailer.

Customer Support: If you have any questions, require assistance with assembly, or need to report missing/damaged parts, please contact Yaheetech customer service. You can typically find contact information on the Yaheetech official website or through the retailer where you purchased the product.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
