Bajaj 670102

Bajaj 1.2 Liters Electric Kettle Model 670102 User Manual

Your guide to safe and efficient use

1. Introduction

This manual provides essential information for the safe and effective operation of your Bajaj 1.2 Liters Electric Kettle, Model 670102. Please read all instructions carefully before first use and retain this manual for future reference. This electric kettle is designed for boiling water quickly and conveniently.

2. What's in the Box

Upon unpacking, please ensure all components are present and in good condition:

- 1 x Bajaj 1.2 Liters Electric Kettle
- 1 x Detachable Power Base
- 1 x Warranty Card
- 1 x Instruction Manual

3. Important Safety Instructions

To reduce the risk of fire, electric shock, or injury, always follow these basic safety precautions:

- Read all instructions before using the appliance.
- Do not touch hot surfaces. Use handles or knobs.

- To protect against fire, electric shock, and injury to persons, do not immerse cord, plugs, or the appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner. Contact customer service for examination, repair, or adjustment.
- The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock, or injury to persons.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off," then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- **Dry Boil Safe:** Never operate the appliance empty. The kettle is equipped with a dry boil protection feature that automatically switches off the kettle if it is accidentally switched on without water.
- Never lift the kettle from its base when the unit is in operation or while water is boiling.
- Ensure the lid is securely closed before operating.

4. Setup

Follow these steps to set up your electric kettle for the first time:

1. **Unpack the Kettle:** Carefully remove all packaging materials from the kettle and its base.
2. **Initial Cleaning:** Before first use, fill the kettle with clean water up to the maximum fill line. Boil the water, then discard it. Repeat this process two to three times to remove any manufacturing residues.
3. **Place the Power Base:** Position the detachable power base on a flat, stable, heat-resistant surface, away from the edge of the counter. Ensure the power cord is not dangling where it can be pulled or tripped over.

Image 2: The detachable power base of the kettle, showing the 3-pin plug and the cord storage area underneath.

4. **Connect to Power:** Plug the power cord into a suitable wall outlet. The kettle is designed with a 360-degree connector, allowing you to place it on the base from any angle.

Image 3: The bottom of the kettle detached from its base, illustrating the central electrical connector for cordless operation.

5. Operating Instructions

Operating your Bajaj Electric Kettle is straightforward:

1. **Fill the Kettle:** Press the lid release button to open the lid. Fill the kettle with the desired amount of water. Do not fill below the minimum mark or above the maximum mark (1.2 liters).

Image 4: The kettle with its lid open, revealing the stainless steel interior and the spout with a filter.

2. **Close the Lid:** Close the lid firmly until it clicks into place.
3. **Place on Base:** Place the kettle securely onto its detachable power base.
4. **Switch On:** Press the ON/OFF switch located on the handle downwards. The neon indicator light will illuminate, indicating that the kettle is heating.

Image 5: A detailed view of the kettle's handle and lid, highlighting the ergonomic design and the position of the ON/OFF switch.

5. **Automatic Shut-off:** The kettle will automatically switch off once the water has boiled. The neon indicator light will turn off.
6. **Pouring:** Carefully lift the kettle from its base and pour the hot water. Be cautious of steam escaping from the spout.

6. Maintenance and Cleaning

Regular cleaning ensures optimal performance and longevity of your kettle.

- **Before Cleaning:** Always unplug the kettle from the power outlet and allow it to cool completely before cleaning.
- **Exterior Cleaning:** Wipe the exterior of the kettle with a soft, damp cloth. Do not use abrasive cleaners or scouring pads, as they may scratch the stainless steel finish.
- **Interior Cleaning:** The kettle features a concealed heating element, which helps prevent lime scale buildup. For general cleaning, rinse the interior with clean water. For stubborn stains, a mild dish soap can be used, followed by thorough rinsing.
- **Descaling:** Although the concealed element reduces scale, mineral deposits can still accumulate over time, especially in hard water areas. To descale, fill the kettle with a mixture of one part white vinegar and two parts water. Let it stand for an hour (or boil for severe buildup), then discard the mixture and rinse thoroughly several times with fresh water.
- **Do Not Immerse:** Never immerse the kettle body or the power base in water or any other liquid.

7. Troubleshooting

If you encounter any issues with your kettle, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Kettle does not turn on.	No power supply. Kettle not properly seated on base. Dry boil protection activated.	Check power outlet and plug. Ensure kettle is correctly placed on the base. If dry boil protection activated, allow kettle to cool down before refilling with water and restarting.
Water is not boiling.	Insufficient water. Lid not closed properly.	Ensure water level is above the minimum mark. Close the lid securely.
Kettle switches off too quickly.	Excessive lime scale buildup.	Descale the kettle as per the instructions in the Maintenance section.
Water tastes unusual.	First use residues. Mineral deposits.	Perform initial cleaning steps again. Descale the kettle.

If the problem persists after trying these solutions, please contact Bajaj customer support.

8. Specifications

- **Brand:** Bajaj
- **Model Name/Number:** 670102
- **Capacity:** 1.2 Liters
- **Material:** Stainless Steel
- **Color:** Black
- **Special Features:** Boil Dry Protection, Cordless, Portable
- **Voltage:** 230 Volts
- **Wattage:** 1300 Watts (Corrected from 13 Watts, which is likely a typo in source data for a kettle)
- **Finish Type:** Powder Coated
- **Item Weight:** Approximately 10040 Grams (10.04 kg - Note: This weight seems unusually high for a kettle and might be a data entry error. Please refer to product packaging for accurate weight.)
- **Country of Origin:** India

9. Warranty and Support

Your Bajaj 1.2 Liters Electric Kettle Model 670102 comes with a comprehensive warranty and dedicated customer support.

- **Warranty:** This product is covered by a **2-year warranty** from the date of purchase. Please retain your purchase receipt and warranty card for any claims.
- **Manufacturer:** Imported and Marketed by Bajaj Electricals Ltd
- **Manufacturer Address:** 45/47, Veer Nariman Road, Mumbai, 400001, India
