SAFETY INFORMATION

Always prioritize safety when operating this remote control toy. Failure to follow these guidelines may result in injury or damage to the product.

- **Age Recommendation:** This product is recommended for ages 3 and above.
- **Battery Safety:**
 - Do not mix old and new batteries.
 - Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
 - Insert batteries with correct polarity (+ and -).
 - Remove exhausted batteries promptly.
 - Remove batteries if the toy will not be used for an extended period.
 - Non-rechargeable batteries are not to be recharged.
 - Rechargeable batteries are only to be charged under adult supervision.
 - The battery slot is secured with a safety screw. Ensure it is properly fastened after battery installation.

- **Operating Environment:** Operate the bus in open, clear areas, away from obstacles, people, and pets. Avoid operating near water or in wet conditions.
- **Antenna Safety:** The remote control features a flexible antenna designed for safety. Avoid bending or forcing the antenna excessively.

Flexible Antenna for Safety

SETUP

The Hakoys HAK125 requires no assembly and is ready to use after battery installation.

1. Battery Installation (Bus)

1. Locate the battery compartment on the underside of the bus.
2. Using a small screwdriver, loosen the safety screw and open the battery compartment cover.
3. Insert 3 x AA batteries (not included) into the compartment, ensuring correct polarity (+ and -).
4. Replace the cover and tighten the safety screw.

2. Battery Installation (Remote Control)

1. Locate the battery compartment on the back of the remote control.
2. Open the battery compartment cover.
3. Insert 2 x AA batteries (not included) into the compartment, ensuring correct polarity (+ and -).
4. Replace the cover.

OPERATING INSTRUCTIONS

1. Power On/Off

- Turn on the power switch located on the underside of the bus.
- Turn on the power switch on the remote control. The indicator light on the remote should illuminate.
- To turn off, switch off both the remote control and the bus.

2. Driving the Bus

The remote control operates on a 40 Mhz frequency and provides 4-channel control for various movements.

- **Forward/Backward:** Use the left joystick (or designated button) to move the bus forward or backward.
- **Left/Right:** Use the right joystick (or designated button) to steer the bus left or right.
- The bus features RWD (Rear-Wheel Drive) for realistic movement.
- **Lights:** The bus is equipped with functional headlights and reverse lights that activate during operation.

3. Adjusting Front Tire Alignment

If the bus does not drive straight, you can adjust the front tire alignment using the trim control on the underside of the bus or on the remote control (if available). Refer to the remote control for specific trim adjustment features.

MAINTENANCE

- **Cleaning:** Wipe the bus and remote control with a soft, dry cloth. Do not use water or chemical cleaners, as this may damage electronic components.
- **Battery Removal:** Always remove batteries from both the bus and the remote control when the toy is not in use for extended periods to prevent leakage and damage.
- **Storage:** Store the toy in a cool, dry place, away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bus does not respond to remote control.	Low or dead batteries in bus or remote. Bus or remote not powered on. Out of range. Interference.	Replace batteries in both bus and remote. Ensure both devices are switched ON. Bring the bus closer to the remote control. Move to an area with less radio interference.
Bus does not drive straight.	Front wheel alignment issue.	Adjust the front tire alignment trim control on the bus or remote control.
Lights are not working.	Low batteries. Bus not powered on.	Replace batteries. Ensure the bus is switched ON.
