4. SETUP AND ASSEMBLY

The Sonic The Hedgehog 2 The Tornado Playset comes largely pre-assembled. Minor setup involves placing the figures.

1. **Unboxing:** Carefully remove all components from the packaging. Retain packaging for future reference if needed.
2. **Place Tails Figure:** Position the Tails figure into the cockpit of The Tornado biplane. Ensure it is seated securely.
3. **Pose Sonic Figure:** The Sonic figure can be posed on the wings of the biplane. Utilize the pegs and hand-holds on the wings to secure Sonic in various action poses.

5. OPERATING INSTRUCTIONS

The Tornado Playset is designed for imaginative play and features interactive elements:

- **Propeller Spin:** To activate the spinning propeller, gently press down on the biplane. The propeller will spin manually.
- **Ground Movement:** The biplane is equipped with rolling wheels. Push the biplane along a flat surface to simulate taxiing or ground movement.
- **Figure Posing:** Utilize the articulation points on the Sonic and Tails figures to create dynamic poses. The pegs and hand-holds on the biplane wings allow Sonic to be securely positioned for aerial adventures.

6. MAINTENANCE

To ensure the longevity of your Sonic The Hedgehog 2 The Tornado Playset, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the playset and figures with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the playset in a cool, dry place away from direct sunlight and extreme temperatures to prevent material degradation.
- **Handling:** Handle the playset and figures with care to prevent breakage, especially small parts like the propeller and figure limbs.

7. TROUBLESHOOTING

If you encounter any issues with your playset, consider the following:

- **Propeller Not Spinning:** Ensure there are no obstructions preventing the propeller from rotating freely. Check if the mechanism for pressing down on the biplane is functioning correctly.
- **Figures Not Staying on Wings:** Verify that the Sonic figure's feet are properly aligned with the pegs on the wings and that its hands are gripping the hand-holds. Some figures may require careful balancing depending on the pose.
- **General Wear and Tear:** Over time, small parts may become loose. If a part detaches, and it is safe to do so, it can often be reattached. For significant damage, contact customer support.
