Breville BJE830BSS

Breville Juice Fountain Cold XL User Manual

Model: BJE830BSS

Brand: Breville

INTRODUCTION

Welcome to the Breville Juice Fountain Cold XL user manual. This document provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new juicer.

The Breville Juice Fountain Cold XL is designed to extract nutrient-rich juice quickly, featuring Cold Spin Technology and Noise Reduction Technology for an optimal juicing experience.

IMPORTANT SAFEGUARDS

Always follow basic safety precautions when using electrical appliances.

- Read all instructions before use.
- Do not immerse the power cord, plug, or motor base in water or any other liquid.
- Ensure the appliance is properly assembled before operation.
- Do not place hands or other objects into the feed chute while the appliance is operating. Always use the food pusher.
- Unplug from outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Keep children away from the appliance during operation.
- Use only attachments recommended or sold by the manufacturer.

COMPONENTS

Familiarize yourself with the parts of your Breville Juice Fountain Cold XL.

Image showing the main unit of the Breville Juice Fountain Cold XL juicer alongside its 70 fl oz juice jug. The juicer features a stainless steel finish and a control dial on the front.

- Food Pusher
- Juicer Cover with 3.5-inch extra wide feed chute
- Stainless Steel Filter Basket
- Juice Collector
- Motor Base with control dial (OFF, QUIET, FAST, BOOST settings)
- Pulp Container (located behind the product base)
- 70 fl oz Easy Seal Juice Jug with froth separator
- Cleaning Brush

- Detachable Spout (for direct juicing into glass)

ASSEMBLY AND SETUP

1. Place the motor base on a dry, level surface.
2. Insert the juice collector onto the motor base.
3. Place the stainless steel filter basket firmly into the juice collector.
4. Position the juicer cover over the filter basket and secure it by lifting the safety locking arm up and over the juicer cover.
5. Attach the pulp container to the back of the motor base.
6. Place the juice jug under the juice spout.
7. Plug the power cord into a grounded electrical outlet.

OPERATING INSTRUCTIONS

Preparing Ingredients

Wash fruits and vegetables thoroughly. The 3.5-inch extra wide chute allows juicing of whole fruits and vegetables without pre-cutting, such as apples, carrots, and oranges. Remove large seeds or pits from fruits like peaches, plums, etc.

This image demonstrates the 3.5-inch extra wide chute feed, designed to accommodate whole fruits and vegetables, minimizing prep time.

Juicing Process

1. Ensure the juicer is correctly assembled and the juice jug is in place.
2. Turn the control dial to the desired speed setting:
 - **QUIET:** For softer fruits and vegetables, and reduced mechanical noise (40% reduction).
 - **FAST:** For general juicing of most fruits and vegetables.
 - **BOOST:** For harder produce or when maximum yield is desired.
3. With the motor running, gently feed ingredients into the chute using the food pusher. Do not force ingredients down.
4. The Cold Spin Technology ensures minimal heat transfer, preserving vitamins and minerals.

Noise reduction technology: quiet setting reduces mechanical noise by 40%

The control dial allows selection of different speed settings, including 'QUIET' for reduced noise, 'FAST' for general use, and 'BOOST' for harder produce.

Using the Juice Nozzle

The detachable spout allows for mess-free juicing directly into a glass. When finished, simply invert the nozzle to prevent drips and keep your countertop clean.

Storing Juice

The 70 fl oz Seal & Store Jug allows you to make a large batch of juice for the whole family. Juice can be stored in the refrigerator for up to three days.

Extra wide chute feed allows you to juice whole fruits and vegetables without pre-cutting

The XL 70 fl oz Seal and Store juice jug is designed for easy storage of freshly made juice in the refrigerator. It is also dishwasher safe for convenient cleaning.

MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and longevity of your juicer.

1. Unplug the juicer from the power outlet before cleaning.
2. Disassemble all removable parts: food pusher, juicer cover, filter basket, juice collector, pulp container, and juice jug.
3. Rinse all removable parts under running water. Use the provided cleaning brush to clean the stainless steel filter basket thoroughly.
4. The 70 fl oz Easy Seal Juice Jug and other removable parts are dishwasher safe (top rack recommended).

- 5. Wipe the motor base with a damp cloth. Do not immerse the motor base in water.
- 6. Dry all parts completely before reassembling or storing.

TROUBLESHOOTING

If you encounter issues with your Breville Juice Fountain Cold XL, refer to the following common problems and solutions.

Problem	Solution
Juicer does not turn on	Ensure the power cord is securely plugged in and the safety locking arm is correctly engaged and locked into position.
Motor stalls or slows down	This may occur with very hard produce or if too much pressure is applied with the food pusher. Reduce the amount of produce or apply less pressure. Ensure the filter basket is clean.
Excessive vibration or noise	Ensure the filter basket is correctly inserted and not damaged. Check that all parts are properly assembled and the safety locking arm is engaged.
Pulp is wet	This can happen with certain types of produce. Try using the BOOST setting for harder fruits and vegetables to maximize yield. Ensure the filter basket is clean.

SPECIFICATIONS

- **Model:** BJE830BSS
- **Brand:** Breville
- **Power:** 1200 Watts
- **Voltage:** 110 to 120 Volts
- **Juice Jug Capacity:** 70 fl oz (2 Liters)
- **Pulp Container Capacity:** 3.9 qt (3.7 Liters)
- **Dimensions (approx.):** 17.44" H x 13.39" W x 8.7" D

Product Dimensions

17.4" High x 13.4" Wide x 8.7" Deep

This diagram illustrates the approximate product dimensions of the Breville Juice Fountain Cold XL, which are 17.4 inches high, 13.4 inches wide, and 8.7 inches deep.

WARRANTY AND SUPPORT

The Breville Juice Fountain Cold XL comes with a **1 Year Limited Product Warranty**.
