4. OPERATING THE BUNK BED

Once assembled, the Annika Bunk Bed is ready for use. Ensure that the ladder is stable before climbing to the top bunk. Always use the ladder for access to the top bunk; do not climb on the bed frame directly. The integrated safety barrier is designed to prevent accidental falls from the top bunk during sleep.

When using the bed as two single beds, ensure they are placed on a flat, stable surface and are not prone to tipping.

5. MAINTENANCE AND CARE

The Inter Link Annika Bunk Bed is made from solid pine with a white lacquered finish, making it water-repellent and easy to maintain. Regular cleaning will help preserve its appearance and extend its lifespan.

- **Cleaning:** Wipe the surfaces with a damp cloth. For stubborn marks, a mild soap solution can be used.
- **Drying:** Always dry the surfaces immediately with a dry cloth after cleaning to prevent water damage.
- **Inspections:** Periodically inspect all structural components, bolts, and screws. Tighten any loose connections to maintain the bed's stability and safety.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or strong chemical solvents, as these can damage the lacquered finish.
