Revlon Nail Nipper for Men Instruction Manual

Model: 309970030421

INTRODUCTION

Thank you for choosing the Revlon Nail Nipper for Men. This precision-crafted tool is designed to provide effective and comfortable trimming for both fingernails and toenails, especially thicker nails. Made with durable stainless steel and featuring an ergonomic, non-slip grip, this nipper ensures control and precision for your grooming needs. Please read this manual carefully to ensure proper use, maintenance, and safety.

SAFETY PRECAUTIONS

Always prioritize safety when using the nail nipper.

- Keep out of reach of children. The blades are extremely sharp.
- Clean and dry nails thoroughly before and after clipping to prevent infections.
- Avoid cutting nails too short, as this can lead to discomfort or ingrown nails.
- Do not round off the corners of toenails, as this can promote ingrown toenails. Cut straight across.
- Exercise caution around airport metal detectors and be aware of TSA rules for air travel regarding sharp objects.

OPERATING INSTRUCTIONS

Follow these steps for optimal nail trimming results:

1. **Prepare Nails:** For fingernails, it is best to trim them when dry, as dry nails are less prone to bending or tearing, resulting in a smoother cut. For thick toenails, soak them in warm water for approximately 10 minutes to soften them before trimming. Ensure nails are thoroughly dry before proceeding.
2. **Position the Nipper:** Hold the nipper firmly using the non-slip grip handles. Position the precision-crafted blades over the nail.

3. **Trimming Fingernails:** Instead of clipping straight across, which can bend and damage nails, cut at an angle that follows the natural curve of your nail. Make 3 to 4 small, controlled cuts as you move from the outer edges inward to achieve the desired shape.
4. **Trimming Toenails (especially thick nails):** Make small, deliberate cuts to avoid splintering the nail. It is crucial to cut straight across the toenail; do not round off the corners, as this can lead to painful ingrown toenails.

STAINLESS STEEL

Professional-quality strength

Men's Series Nail Nipper

5. **Applying Pressure:** For tough or thick nails, squeeze the nipper handles in one quick, firm motion. Gradually closing the handles can make it harder to cut through tough nails effectively.

CARE AND MAINTENANCE

To ensure the longevity and performance of your Revlon Nail Nipper:

- After each use, clean the blades with an alcohol wipe or a damp cloth to remove any nail debris.
- Ensure the nipper is completely dry before storing to prevent rust, as it is made of stainless steel.
- Store in a dry place, preferably in a protective pouch or case, to protect the blades.
- Do not use the nipper for purposes other than nail trimming, as this can dull or damage the blades.

TROUBLESHOOTING

If you encounter issues with your Revlon Nail Nipper, consider the following:

- **Difficulty Cutting:** Ensure nails are properly prepared (dry for fingernails, softened for thick toenails). Apply a quick, firm squeeze rather than a slow closure.
- **Uneven Cut:** Verify that the nipper blades are clean and free of debris. Ensure you are making small, controlled cuts, especially for toenails.
- **Discomfort During Use:** You might be cutting too close to the quick or attempting to cut too much nail at once. Review the operating instructions for proper technique.

PRODUCT SPECIFICATIONS

Brand	REVLON
Model Number	309970030421
UPC	309970030421
Material	Stainless Steel
Blade Material	Stainless Steel
Blade Edge	Curved
Color	White
Product Dimensions	1 x 2.95 x 6.45 inches; 1.28 ounces
Manufacturer	Revlon Consumer Products Corp.
