## Mkono YYBSWD065

# Mkono Macrame Plant Hanger Instruction Manual

Model: YYBSWD065 | Brand: Mkono

## 1. INTRODUCTION

---

The Mkono Macrame Plant Hanger is designed to elegantly display your indoor or outdoor plants. Crafted from durable cotton cord with decorative wood beads, this hanger provides a stylish solution for showcasing your favorite potted plants while optimizing space. It features a strong, flexible woven design suitable for various pot shapes and sizes.

### 3. SETUP

1. **Choose Location:** Select a suitable indoor or outdoor location with adequate light for your plant. Ensure the hanging point (ceiling hook, wall bracket, etc.) is sturdy enough to support the weight of the plant hanger and your potted plant.
2. **Install Hook (if necessary):** If a hanging point is not already present, install a robust ceiling hook or wall bracket. Ensure it is securely fastened into a stud or appropriate anchor for maximum stability.
3. **Prepare Plant Pot:** Place your desired plant into a pot. The Mkonno Macrame Plant Hanger is designed to accommodate planters up to 9 inches in diameter.
4. **Place Pot in Hanger:** Gently expand the four leg strings of the macrame hanger. Carefully place your potted plant into the center of the hanger's conjunction, ensuring the pot sits securely within the woven base.
5. **Hang the Hanger:** Loop the top ring of the macrame hanger onto your installed hook or bracket. Adjust the hanger to ensure the plant is balanced and hanging evenly.

35"

*Pots and plants are not included*

#### 4. OPERATING

Once installed, your plant hanger requires minimal operation. The primary consideration is proper watering of your plant.

- **Watering:** When watering your plant, ensure that any excess water can drain properly to prevent root rot. If your pot has drainage holes, consider using a drip tray within the macrame hanger to catch water and protect surfaces below. Some pots are designed with a self-watering reservoir at the bottom, allowing the plant to absorb water as needed.
- **Rotation:** Periodically rotate your plant to ensure even light exposure and growth on all sides.

## 5. MAINTENANCE

- **Cleaning:** The cotton macrame cord can be gently spot cleaned with a damp cloth and mild soap if it becomes soiled. Avoid harsh chemicals or excessive scrubbing, which may damage the fibers.
- **Inspection:** Periodically inspect the macrame cords and knots for any signs of wear or damage, especially if holding heavy pots. Ensure the hanging loop remains secure.
- **Storage:** If storing the plant hanger, ensure it is clean and dry to prevent mildew. Store in a cool, dry place away from direct sunlight to preserve the material.

## 6. TROUBLESHOOTING

---

- **Hanger Appears Unstable:** Ensure the ceiling hook or wall bracket is properly installed into a structural support (stud, joist) and rated for the weight of your plant and pot. Redistribute the pot within the hanger to ensure even weight distribution.
- **Pot Does Not Fit:** The hanger is designed for pots up to 9 inches in diameter. If your pot is larger, it may not fit securely. Consider a smaller pot or a different hanger size.
- **Macrame Cord Fraying:** Minor fraying can occur over time. Trim loose threads carefully. If significant fraying occurs, inspect for structural integrity and consider replacement if safety is a concern.

## 7. SPECIFICATIONS

---

Feature	Detail
Material	Cotton
Color	Ivory
Special Feature	Foldable
Style	Bohemian, Farmhouse, Modern Minimalist, Elegant
Planter Form	Plant Pot
Shape	Cylindrical
Indoor/Outdoor Usage	Indoor
Mounting Type	Hanging
Product Dimensions	9"D x 9"W x 35"H
Item Weight	4.8 ounces
Model Number	YYBSWD065

## 9. WARRANTY AND SUPPORT

---

For any questions, concerns, or support regarding your Mkono Macrame Plant Hanger, please refer to the seller's contact information on the purchase platform. Specific warranty details may vary by retailer and region.

## 10. SAFETY INFORMATION

---

- Always ensure the hanging point is strong enough to support the combined weight of the hanger, pot,

plant, and wet soil.

- Keep out of reach of children and pets to prevent accidental pulling or tipping.
- Avoid hanging near heat sources or open flames.
- Do not overload the hanger beyond its intended capacity.
