GreatPowerDirect USB PC Charging Cable for Anker SoundCore Mini A3101 A3102 Speaker User Manual

Model: GPD081205-20605

INTRODUCTION

This manual provides instructions for the proper use and maintenance of your GreatPowerDirect USB PC Charging Cable. This cable is designed for charging and connecting your Anker SoundCore Mini A3101 and A3102 speakers to a personal computer or a compatible USB power source.

SETUP

Follow these steps to set up your USB charging cable:

1. **Identify Connectors:** The cable features a standard USB Type-A connector on one end and a Micro-USB connector on the other.
2. **Connect to Power Source/PC:** Insert the USB Type-A end of the cable into a compatible USB port on your computer, a USB wall adapter, or a power bank.
3. **Connect to Speaker:** Insert the Micro-USB end of the cable into the charging port of your Anker SoundCore Mini A3101 or A3102 speaker. Ensure the connection is firm.

Image: Close-up view of the USB Type-A and Micro-USB connectors, illustrating the distinct shapes for proper connection.

OPERATING INSTRUCTIONS

Once connected, the cable facilitates two primary functions:

- **Charging:** When connected to a power source, the cable will supply power to your Anker SoundCore Mini speaker, initiating the charging process. The speaker's charging indicator (if present) will typically illuminate to confirm charging.
- **Data Connection:** When connected to a personal computer, the cable allows for data transfer between the computer and the speaker, if the speaker supports this functionality. Refer to your speaker's manual for specific data transfer instructions.

Image: The USB cable extended, displaying both the standard USB and Micro-USB connectors, ready for use.

MAINTENANCE

Proper care will extend the lifespan of your charging cable:

- **Storage:** Store the cable in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly coiling or bending the cable at sharp angles, as this can damage internal wires.
- **Cleaning:** If necessary, gently wipe the cable with a soft, dry cloth. Do not use harsh chemicals or

abrasive cleaners. Ensure connectors are free of dust and debris.

- **Handling:** Always grasp the connector head when plugging or unplugging the cable, rather than pulling on the cord itself.

TROUBLESHOOTING

If you encounter issues with your charging cable, consider the following:

- **Cable Not Charging:**
 - Ensure both ends of the cable are securely connected.
 - Try using a different USB port on your computer or a different wall adapter.
 - Verify that the power source is functioning correctly.
 - Confirm that your Anker SoundCore Mini speaker is compatible with this cable and its charging port is clean and undamaged.
- **Cable Not Connecting to PC (Data Transfer):**
 - Check all connections.
 - Ensure your computer's USB drivers are up to date.
 - Try a different USB port on your computer.
 - Consult your speaker's manual to confirm data transfer capabilities and any specific software requirements.

SPECIFICATIONS
