## 6. TROUBLESHOOTING

### 6.1 Common Issues

- **Issue:** Lip gloss appears dry, clumpy, or has an unusual odor.  
**Solution:** Ensure the cap is always securely closed after use. Exposure to air can cause drying. If the product has expired or been exposed to air for an extended period, it may need replacement. Check the

product's expiration date if available.

- **Issue:** Skin irritation, redness, or itching after application.  
**Solution:** Discontinue use immediately. Gently remove the product from the affected area with a mild cleanser. Consult a medical professional if irritation persists. Review the product ingredients for potential allergens.
- **Issue:** Lip gloss tube is leaking.  
**Solution:** Ensure the cap is fully tightened. If the tube is cracked or damaged, discontinue use to prevent further leakage and potential contamination.
