Sluban M38-B0691

Sluban M38-B0691 WWII Panzer II Building Block Set Instruction Manual

1. Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your Sluban M38-B0691 WWII Panzer II building block set. This set contains 356 pieces designed for constructing a replica of the WWII Panzer II tank. Please read all instructions carefully before beginning assembly.

2. Safety Information

- **Choking Hazard:** This product contains small parts and is **not suitable for children under 36 months**. Adult supervision is recommended for all users, especially those under the age of 8.
- Keep all packaging materials away from children to prevent suffocation.
- Do not put building blocks in the mouth.
- Ensure all pieces are securely connected to prevent accidental detachment and potential hazards.

3. Setup and Assembly

Your Sluban M38-B0691 set includes full-color instructions to guide you through the assembly process. Follow these steps for a smooth building experience:

1. **Unpack Components:** Carefully open the packaging and lay out all the building block bags. Do not open all bags at once to avoid mixing pieces.
2. **Review Instructions:** Familiarize yourself with the included full-color instruction booklet. Each step is illustrated to show which pieces are needed and how they connect.
3. **Follow Step-by-Step:** Assemble the model by following the instructions sequentially. Pay close attention to the orientation and placement of each block.
4. **Verify Connections:** Ensure each block is firmly pressed into place to create a stable structure.

4. Operating the Model

Once assembled, your Sluban M38-B0691 Panzer II model offers several interactive features:

- **Turret Rotation:** The tank's turret can be rotated 360 degrees manually.
- **Gun Elevation:** The main gun can be adjusted up and down to simulate firing positions.
- **Track Movement:** The tank features rolling tracks, allowing it to be pushed across smooth surfaces.
- **Figure Placement:** The included figures can be placed in the tank's open hatch or positioned around the model for display.

5. Maintenance

To ensure the longevity and appearance of your building block set, follow these simple maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. For more thorough cleaning, gently wipe with a damp cloth and mild soap, then dry immediately. Do not submerge in water.
- **Storage:** Store the assembled model or disassembled blocks in a cool, dry place away from direct sunlight to prevent discoloration and material degradation.
- **Handling:** Handle the model with care to avoid accidental breakage or detachment of pieces.

6. Troubleshooting

If you encounter any issues during assembly or with the completed model, consider the following:

- **Missing Pieces:** Double-check all packaging and the surrounding area. If a piece is genuinely missing, refer to the warranty and support section.
- **Difficulty Connecting Pieces:** Ensure you are using the correct pieces as indicated in the instructions. Apply firm, even pressure. If a piece is too tight or too loose, it might be incorrectly oriented or a manufacturing variation.
- **Model Instability:** Review previous assembly steps to ensure all connections are secure and correctly placed. Loose connections can lead to an unstable model.
