1. INTRODUCTION

This manual provides essential information for the Sluban M38-B0697 Battle of Kursk construction set. This set allows for creative expression through building various models, featuring 1001 pieces designed to integrate perfectly with other construction blocks. It is suitable for children aged 36 months and older, encouraging imagination and fine motor skills development.

The set includes components to build a detailed representation of the Battle of Kursk, featuring military vehicles, figures, and environmental elements.

2. SAFETY INFORMATION

- For external use only. This product is a toy and not intended for consumption.
- Avoid contact with eyes.
- Keep away from open flames or direct heat sources to prevent damage or melting of plastic components.
- Small parts may pose a choking hazard for young children. Adult supervision is recommended, especially for children under the recommended age.

3. SETUP AND ASSEMBLY

Detailed assembly instructions for the Sluban M38-B0697 Battle of Kursk set are provided in a separate, dedicated

instruction booklet included within the product packaging. Please refer to that booklet for step-by-step guidance on constructing each model.

Before beginning assembly:

1. Unpack all components carefully and verify that all 1001 pieces are present.
2. Organize pieces by type or color to facilitate the building process.
3. Follow the sequence outlined in the assembly booklet for optimal results.

DURABLE PLASTIC CONSTRUCTION

This image displays a comprehensive collection of assembled Sluban military construction models, emphasizing their durable plastic construction. It features a tank, a jeep, an airplane, various cannons, a motorcycle, and minifigures, all ready for play.

4. OPERATING AND PLAY

The Sluban M38-B0697 construction set is designed for imaginative play. Once assembled, the models can be used to recreate historical battle scenes or invent new scenarios. The set encourages:

- **Creative Storytelling:** Develop narratives and roles for the minifigures and vehicles.
- **Strategic Thinking:** Arrange models to simulate tactical engagements.
- **Fine Motor Skills:** Interacting with the assembled models and their movable parts.

The construction blocks are compatible with other major brands, allowing for expansion and integration into existing collections for even more elaborate creations.

5. MAINTENANCE

To ensure the longevity and cleanliness of your Sluban construction set, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, damp cloth to wipe down the blocks and assembled models. For stubborn dirt, a mild soap solution can be used, followed by rinsing with clean water and air drying. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the construction set in a cool, dry place away from direct sunlight and extreme temperatures. This helps prevent discoloration and material degradation.
- **Handling:** Handle the models with care to avoid accidental breakage of smaller components.

6. TROUBLESHOOTING

While Sluban construction sets are designed for quality, occasional issues may arise. Here are some common troubleshooting tips:

- **Missing Pieces:** If you discover missing pieces upon opening the set, first double-check all packaging materials. If pieces are still missing, please refer to the "Support Information" section for how to contact customer service.
- **Difficulty Assembling:** Ensure you are following the assembly instructions precisely. Sometimes, a piece may appear similar to another but has a slightly different connection point. Refer to the diagrams carefully.
- **Loose Connections:** If blocks do not hold together firmly, ensure they are fully pressed into place. If a specific block consistently has a loose fit, it might be a manufacturing defect; contact support if this significantly impacts assembly.
