ZEBRONICS ZEB-Power

ZEBRONICS Zeb-Power Wired USB Mouse User Manual

Model: ZEB-Power

1. INTRODUCTION

Thank you for choosing the ZEBRONICS Zeb-Power Wired USB Mouse. This manual provides essential information for setting up, operating, and maintaining your new mouse. The Zeb-Power mouse is designed for reliable performance with its advanced optical sensor technology and a compact, stylish design.

Key features include:

- Compact and stylish design
- Advanced optical sensor technology with 1200 DPI resolution
- Easy plug-and-play installation
- Compatible with Windows XP / Vista / 7 / 8 / 10, Mac OS, or Android OS
- Durable 1.1m USB cable

2. SETUP

The Zeb-Power mouse features a simple plug-and-play setup, requiring no additional drivers for most operating systems.

2.1 Connecting the Mouse

1. Locate an available USB port on your computer (desktop, laptop, or compatible device).
2. Insert the USB connector of the Zeb-Power mouse firmly into the USB port.
3. Your operating system will automatically detect and install the necessary drivers. This process usually takes a few seconds.
4. Once installed, the mouse is ready for use.

Figure 2: The Zeb-Power mouse features a 1.1m cable length and a standard USB-A interface for easy connection.

2.2 System Compatibility

The Zeb-Power mouse is compatible with a wide range of operating systems:

- Windows XP
- Windows Vista
- Windows 7
- Windows 8
- Windows 10
- Mac OS
- Android OS (with appropriate USB host support)

3. OPERATING THE MOUSE

The Zeb-Power mouse is a standard 3-button optical mouse designed for intuitive navigation.

3.1 Basic Functions

- **Left Button:** Primary click function, used for selecting items, opening files, and activating links.
- **Right Button:** Secondary click function, typically used to open context menus.
- **Scroll Wheel (Middle Button):** Used for scrolling through documents and web pages. Can also function as a middle click button for specific applications.

Figure 3: The compact design of the Zeb-Power mouse ensures comfortable handling for extended use.

3.2 Optical Sensor and DPI

The mouse is equipped with an advanced optical sensor providing 1200 DPI (Dots Per Inch) resolution. This high precision ensures smooth and accurate cursor movement on various surfaces.
Figure 4: The 1200 DPI optical sensor provides high precision for accurate cursor control.

3.3 Surface Compatibility

The optical sensor is designed to work effectively on most common surfaces, including mouse pads, wood, and plastic. For optimal performance, avoid highly reflective or transparent surfaces like glass.

Figure 5: The Zeb-Power mouse is designed to work reliably on a variety of common desk surfaces.

4. MAINTENANCE

Proper care and maintenance will extend the lifespan of your Zeb-Power mouse.

4.1 Cleaning

- Disconnect the mouse from your computer before cleaning.
- Use a soft, slightly damp cloth to wipe the exterior of the mouse.
- For stubborn dirt, a small amount of mild soap can be used, but ensure no liquid enters the mouse.
- Use a cotton swab or compressed air to clean around the scroll wheel and buttons.
- Gently wipe the optical sensor on the underside of the mouse with a clean, dry cloth to ensure optimal tracking performance.

Figure 6: The underside of the mouse, showing the optical sensor. Keep this area clean for best performance.

4.2 Storage

When not in use for extended periods, store the mouse in a clean, dry environment away from extreme temperatures and direct sunlight.

5. TROUBLESHOOTING

If you encounter issues with your Zeb-Power mouse, refer to the following common problems and solutions:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Mouse not responding	Loose USB connection, faulty USB port, driver issue.	Ensure the USB connector is fully inserted. Try connecting the mouse to a different USB port on your computer. Restart your computer. Check Device Manager (Windows) or System Information (Mac) to see if the mouse is recognized.
Erratic cursor movement	Dirty optical sensor, unsuitable surface.	Clean the optical sensor on the underside of the mouse. Use the mouse on a clean, non-reflective surface or a mouse pad.
Buttons or scroll wheel not working	Dirt accumulation, software conflict.	Clean around the buttons and scroll wheel. Test the mouse on another computer to rule out software issues.

6. SPECIFICATIONS

Feature	Detail
