7. TROUBLESHOOTING

If you encounter any issues with your case, consider the following:

- **Tablet Does Not Fit:** Double-check your tablet's model number against the compatibility list in Section 2. Ensure the tablet is inserted correctly and fully seated within the frame.

- **Stand Slips:** Ensure the tablet is placed firmly into one of the anti-slip grooves. The grooves are designed to provide stability on flat surfaces.
- **Auto Sleep/Wake Not Working:** Confirm your tablet's settings allow for magnetic sleep/wake functionality. Ensure the case is closed completely and the magnetic flap is aligned.
