Hibbent ETB165Blue

Hibbent Portable Electric Bidet Instruction Manual

MODEL: ETB165BLUE

Introduction

The Hibbent Portable Electric Bidet is designed for personal hygiene, offering a convenient and effective cleaning solution whether at home or while traveling. This device features dual spray functions, a rechargeable battery, and a compact design for portability. It is suitable for various users, including babies, women, pregnant individuals, and general personal care.

- **Dual Spray Function:** Offers both high spray (3-5m water jet height) and low spray (1-2m water jet height) for effective flushing.
- **Water Filling Mode:** Includes a bottle adapter for connecting to larger water containers, ideal for outdoor use. Note: The adapter fits short-threaded water bottles with a 0.96-inch diameter.
- **Waterproof Design:** Constructed from high-quality ABS plastic, ensuring waterproof qualities and quiet operation. Use clean water for optimal performance.
- **Rechargeable Battery:** Equipped with a lithium battery, rechargeable via USB cable, providing approximately 100 cycles per charge. A flashing red light indicates charging, and a steady red light signifies a full charge. A flashing light also indicates low power.
- **Enhanced Personal Hygiene:** Its small size makes it easy to carry, providing a hygienic solution for various situations.

Product Components

Your Hibbent Portable Electric Bidet package includes the following items:

- Main Bidet Unit (with integrated water tank)
- Water Bottle Adapter
- USB Charging Cable
- Handheld Rope
- Storage Bag
- User Manual

Setup

Follow these steps to prepare your bidet for use:

1. **Assemble the Bidet:** Twist the main bidet unit to extend the nozzle. Ensure the two parts are securely locked together.
2. **Fill with Water:** Fill the integrated 165ml water container with clean water. Alternatively, use the provided adapter to connect a standard short-threaded water bottle (0.96-inch diameter) for larger capacity.

If you need a larger capacity?

Operating Instructions

To operate your Hibbent Portable Electric Bidet:

1. **Adjust Nozzle:** Extend the nozzle to the desired length. The nozzle can be adjusted 180 degrees for optimal reach and angle.
2. **Select Spray Mode:** Press the 'HI' button for a high-pressure spray (3-5m water jet) or the 'LO' button for a low-pressure spray (1-2m water jet).
3. **Position and Clean:** Hold the bidet upside down and direct the spray to the desired area.
4. **Turn Off:** Press the power button twice to turn off the bidet.

High & Low Dual Sprayer Modes

High spray
for 3-5m height water jet

Low Spray
for 1-2m working

Charging

The Hibbent Portable Electric Bidet is equipped with a rechargeable lithium battery. To charge the device:

1. Locate the USB charging port on the bidet unit.
2. Connect the provided USB charging cable to the port and a suitable power source (e.g., USB power bank, car USB charger).
3. A flashing red light indicates that the bidet is charging. The red light will remain steady once charging is complete.
4. Charging typically takes about 2.5 hours. Avoid using fast chargers.
5. Keep the unit away from water while charging.

Standard USB Port

Continuous Spray:

35 seconds(low level)
26 seconds(high level)

Chargeable Battery:

lithium battery 3.7V/500mA

Battery Recharging Time:

about **2.5** hours

USB
Power Bank

Car USB
Charger

Tips: No fast charging

**Steady red light - Battery
fully charged**

Keep away from water while charging

Maintenance

Proper maintenance ensures the longevity and hygiene of your bidet:

- **Cleaning:** Regularly clean the water inlet to prevent clogging and maintain optimal water pressure. Use clean water for operation.
- **Waterproof:** The bidet is IPX7 waterproof, allowing it to withstand splashes and spills. However, avoid submerging the unit for extended periods or washing the unit under a tap, especially the USB interface, to prevent water leakage.
- **Storage:** After use, ensure the bidet is dry before storing it in the provided bag.

Portable & Lightweight

Charge anytime, anywhere

Figure 7: The bidet is IPX7 waterproof for safe use in wet environments.

Troubleshooting

If you encounter issues with your Hibbent Portable Electric Bidet, refer to the following common problems and solutions:

- **Bidet Not Turning On/Working:**
 - Ensure the battery is fully charged. Refer to the Charging section.
 - Check if the bidet unit is properly assembled and locked.
- **Weak Water Pressure or Clogging:**
 - Clean the water inlet regularly to prevent blockages.
 - Ensure you are using clean water.
- **Water Leakage:**
 - Verify that all parts are securely connected and locked.
 - Ensure the water bottle adapter is tightly screwed onto compatible bottles.
 - Avoid washing the unit directly under a tap, especially the USB port area.

- **Adapter Not Fitting Water Bottles:**

- The bottle adapter is designed for short-threaded water bottles with a diameter of 0.96 inches. Ensure your bottle meets these specifications.

- **Nozzle Flexibility:**

- The nozzle offers 180-degree adjustment for aiming. Familiarize yourself with its range of motion for effective cleaning.

If problems persist, please contact Hibbent customer support for assistance.

Specifications

Brand	Hibbent
Model Name	ETB165Blue
Item Weight	0.634 ounces
Product Dimensions	6 x 2 x 2 inches
Material	ABS Plastic
Color	Blue
Voltage	3.7 Volts
Battery Type	1 Lithium Polymer (included)
Water Capacity	165 ml (internal tank)
Special Features	Portable, Dual Spray Function, USB Rechargeable, 180° Adjustable Nozzle, IPX7 Waterproof

Warranty and Support

For warranty information and customer support, please refer to the documentation included with your product or contact Hibbent directly through their official channels. Some users have reported a 2-year warranty period; however, specific terms and conditions may vary.
