

Fjords Mustang Large

Fjords Mustang Large Leather Recliner Chair and Ottoman User Manual

Model: Mustang Large | Brand: Fjords

INTRODUCTION

Welcome to the user manual for your Fjords Mustang Large Leather Recliner Chair and Ottoman. This manual provides essential information for the proper setup, operation, maintenance, and care of your new furniture. The Fjords Mustang features the innovative Active Release System, designed to provide optimal neck and back support, enhancing your sitting experience.

Your Fjords Mustang recliner and ottoman are crafted by Hjellegjerde, utilizing cold cure molded foam for lasting comfort and durability. The unique gliding mechanism adapts to your body weight, ensuring a personalized resting position.

SAFETY INFORMATION

WARNING:

- This product has a maximum weight capacity of 300 pounds (136 kg). Exceeding this weight limit could result in damage to the product or pose a risk of injury.
- Ensure all components are securely assembled before use.
- Keep small children and pets away from moving parts during operation.

PRODUCT FEATURES

- **Fjords Active Release System:** An integrated mechanism for adjustable neck support, optimizing comfort with a single movement.
- **Ergonomic Design:** Provides continuous support for the neck, back, and legs, promoting circulation and reducing fatigue.
- **Cold Cure Molded Foam:** Used in the seat, back, armrest, and ottoman for superior suppleness, durability, and shape retention compared to standard foam.
- **Unique Gliding Mountings:** Allows the chair to adjust to your body's weight for the best individual resting

position.

- **Laminated Wood Base:** Available in various finishes including Teak, Cherry, Walnut, and Espresso.
- **Genuine Leather Upholstery:** High-quality leather for comfort and longevity.

SETUP INSTRUCTIONS

The Fjords Mustang Recliner Chair and Ottoman are shipped largely pre-assembled. Follow these steps for final setup:

1. **Unpack Components:** Carefully remove the chair and ottoman from their packaging. Retain packaging materials until you are satisfied with the product.
2. **Inspect for Damage:** Before proceeding, inspect all parts for any signs of shipping damage. Contact customer support immediately if any damage is found.
3. **Position the Chair:** Place the recliner chair in your desired location. Ensure there is adequate space around the chair for reclining.
4. **Position the Ottoman:** Place the ottoman in front of the chair.

5. **Verify Stability:** Gently test the stability of both the chair and ottoman on a flat surface.

OPERATING INSTRUCTIONS

Your Fjords Mustang recliner is designed for intuitive use, adapting to your body's movements.

- **Reclining:** To recline, simply lean back in the chair. The unique gliding mechanism will allow the backrest to tilt backward smoothly. Adjust your body weight to find your preferred reclining angle.
- **Returning Upright:** To return to an upright position, lean forward gently. The chair will smoothly return to its original position.
- **Active Release System (Neck Support):** The integrated neck support can be adjusted. While seated, reach behind the headrest and adjust the mechanism to achieve your desired neck and head support. This system allows for fine-tuning of the headrest angle.
- **Ottoman Use:** The accompanying ottoman is designed to provide comfortable leg support. Position it at a comfortable distance from the chair to elevate your legs.

MAINTENANCE AND CARE

Proper care will ensure the longevity and appearance of your Fjords Mustang Recliner and Ottoman.

- **General Cleaning:** For routine cleaning, wipe the leather and wood surfaces with a soft, dry cloth.
- **Leather Care:** For genuine leather, use a specialized leather cleaner and conditioner periodically as recommended by leather care product manufacturers. Avoid harsh chemicals, abrasive cleaners, or excessive moisture.

- **Wood Base Care:** The laminated wood base can be cleaned with a damp cloth and mild wood cleaner. Avoid prolonged exposure to direct sunlight or extreme temperatures to prevent fading or warping.
- **Spills:** Blot spills immediately with a clean, dry cloth. Do not rub.
- **Avoid Sharp Objects:** Keep sharp objects away from the leather to prevent scratches or punctures.

LEATHER

Nordic Line is a fully protected top grain leather which undergoes careful processing to ensure a finished product that is more resistant to liquids and sunlight. This treatment also protects Nordic Line leather from stains and minor wear while reducing everyday maintenance to an absolute minimum. A perfect choice for furniture that is heavily used.

Soft Line leather features a unique softness and natural feeling for added comfort. Soft Line leather is treated with a delicate, protective finish that protects against stains and improves resistance to liquids. Soft Line is an ideal solution for families that want to enjoy the pleasure of quality leather furniture without having to alter their normal routines in order to maximize the life of their furniture.

Astro Line Semi-anilin: Although the term is typically defined as being only partially aniline dyed, aniline dyeing is in fact only part of the process. The term semi-aniline means that some surface pigments have been applied to the natural leather to even out tones, mask blemishes and make it more resistant to liquids. Compared to pure aniline leather, semi-aniline leathers offer improved resistance to spills and environmental factors. Astro Line leather is slightly thicker than other furniture leather while still maintaining a natural softness and excellent resistance to wear and tear..

TROUBLESHOOTING

If you encounter any issues with your recliner, refer to the following common solutions:

Problem	Possible Cause	Solution
Reclining mechanism feels stiff or not smooth.	Lack of lubrication or obstruction.	Ensure no objects are obstructing the mechanism. Apply a silicone-based lubricant to moving metal parts if accessible, avoiding contact with leather.

Problem	Possible Cause	Solution
Chair makes squeaking noises.	Loose connections or friction between parts.	Check and tighten any visible screws or bolts. Apply lubricant to pivot points if identified as the source of friction.
Headrest adjustment is difficult.	Mechanism might be stiff or misaligned.	Gently work the adjustment mechanism back and forth. Ensure no fabric or foreign objects are caught in the mechanism.
Chair does not swivel freely.	Obstruction or debris in the swivel base.	Inspect the swivel base for any foreign objects. Clean the area and ensure the chair is on a level surface.

If these solutions do not resolve the issue, please contact Fjords customer support for further assistance.
