Ground Zero GZDSP PRO

Ground Zero GZDSP Remote PRO Control User Manual

Model: GZDSP PRO

INTRODUCTION

The Ground Zero GZDSP Remote PRO Control is designed to provide intuitive and precise control over your GZDSP 6-8X PRO Digital Sound Processor. This manual will guide you through the setup, operation, and maintenance of your remote control.

The GZDSP Remote PRO Control unit with its display and rotary knob.

PACKAGE CONTENTS

Before proceeding with installation, please ensure all items are present:

- GZDSP Remote PRO Control Unit
- Connection Wire

The included connection wire for the GZDSP Remote PRO Control.

SETUP

The GZDSP Remote PRO Control connects directly to your compatible GZDSP 6-8X PRO Digital Sound Processor using the provided connection wire.

1. Locate the dedicated remote control port on your GZDSP 6-8X PRO DSP unit.

2. Connect one end of the provided connection wire to the remote control port on the DSP unit.

3. Connect the other end of the connection wire to the port on the rear of the GZDSP Remote PRO Control unit.

4. Ensure all connections are secure before powering on your audio system.

Compatibility: This remote control is specifically designed for use with the Ground Zero GZDSP 6-8X PRO Digital Sound Processor.

OPERATING INSTRUCTIONS

The GZDSP Remote PRO Control features a white LCD display and a multi-function rotary knob with push-button functionality.

Display Overview

The white LCD display shows current settings such as main level, subwoofer level, and selected source or preset.

Functions

Main Level Adjustment

Rotate the knob clockwise to increase the main volume level. Rotate counter-clockwise to decrease the main volume level. The current level will be displayed on the LCD.

Subwoofer Level Adjustment

Press the rotary knob to cycle through available functions until 'Subwoofer Level' is indicated on the display. Rotate the knob to adjust the subwoofer output level.

Source Selection

Press the rotary knob to cycle through available functions until 'Source' is indicated. Rotate the knob to select the desired audio input source.

Preset Selection

Press the rotary knob to cycle through available functions until 'Preset' is indicated. Rotate the knob to select a pre-configured audio preset from your DSP.

Mute Function

Press and hold the rotary knob for approximately 2 seconds to mute or unmute the audio output. The display will indicate 'MUTE' when active.

MAINTENANCE

To ensure the longevity and proper functioning of your GZDSP Remote PRO Control, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the remote control. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the display or finish.
- **Storage:** When not in use for extended periods, store the remote control in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the unit or subjecting it to strong impacts, which can damage internal components or the display.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Remote not responding	Loose connection	Check the connection wire between the remote and the DSP unit. Ensure it is securely plugged in at both ends.
Display is blank	No power to DSP or remote	Verify that your GZDSP 6-8X PRO DSP unit is powered on. Check all power connections to the DSP.
Controls do not change settings	Incorrect mode or DSP issue	Ensure you are in the correct mode for the desired adjustment (e.g., Main Level, Subwoofer Level). If the issue persists, consult the GZDSP 6-8X PRO DSP manual or contact support.

SPECIFICATIONS

- **Model:** GZDSP PRO
- **Compatibility:** GZDSP 6-8X PRO Digital Sound Processor
- **Display:** White LCD
- **Functions:** Source Selection, Main Level, Subwoofer Level, Preset Selection, Mute Function

- **Connectivity:** Wired (Includes connection wire)
