

## Fjords Mustang

# Fjords Mustang Recliner Chair and Ottoman User Manual

Model: Mustang

## 1. INTRODUCTION

Thank you for choosing the Fjords Mustang Recliner Chair and Ottoman. This ergonomically designed furniture piece provides exceptional comfort and support, featuring the Fjords Active Release System for optimal neck support and unique gliding mountings for personalized resting positions. This manual will guide you through the assembly, operation, maintenance, and specifications of your new recliner.

## 2. SETUP AND ASSEMBLY

Your Fjords Mustang Recliner Chair and Ottoman require self-assembly. Please ensure all components are present before beginning. It is recommended to have two people for assembly.

### 2.1 Unpacking

- Carefully remove all components from the packaging.
- Inspect all parts for any damage. If any parts are damaged or missing, please contact customer support.
- Keep packaging materials until assembly is complete in case of return or transport.

### 2.2 Assembly Steps (General)

1. Attach the chair base to the chair seat according to the included hardware instructions. Ensure all bolts are securely tightened.
2. Attach the ottoman base to the ottoman cushion using the provided hardware.

3. Place the assembled chair and ottoman on a level surface.

*Note: Specific assembly instructions and diagrams are typically included with the product packaging. Refer to those for detailed, step-by-step guidance.*

## 3. OPERATING INSTRUCTIONS

---

The Fjords Mustang Recliner is designed for intuitive and comfortable operation.

### 3.1 Reclining Function

- The chair features unique gliding mountings that allow the chair to recline based on your body weight and desired position.
- To recline, simply lean back gently. The chair will adjust to provide continuous support.
- To return to an upright position, lean forward slightly.

### 3.2 Active Release System (Neck Support)

- The integrated Active Release System provides adjustable neck support.
- To adjust, gently push or pull the headrest to find your optimal neck and head position. This can be done with a single movement.

## 4. CARE AND MAINTENANCE

Proper care will ensure the longevity and appearance of your Fjords Mustang Recliner.

### 4.1 Leather Care

- **General Cleaning:** Wipe clean with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Spills:** Immediately blot any spills with a clean, dry cloth. Do not rub.
- **Conditioning:** For genuine leather, use a recommended leather conditioner periodically to maintain suppleness and prevent drying or cracking. Follow the conditioner manufacturer's instructions.
- **Sunlight:** Avoid prolonged exposure to direct sunlight, which can cause fading and drying of the leather.

### 4.2 Wood Base Care

- Wipe the wood base with a soft, dry cloth to remove dust.
- For deeper cleaning, use a slightly damp cloth and dry immediately.
- Avoid using silicone-based polishes or waxes, as these can build up over time.

# LEATHER

**Nordic Line** is a fully protected top grain leather which undergoes careful processing to ensure a finished product that is more resistant to liquids and sunlight. This treatment also protects Nordic Line leather from stains and minor wear while reducing everyday maintenance to an absolute minimum. A perfect choice for furniture that is heavily used.

## NORDIC LINE

**Soft Line** leather features a unique softness and natural feeling for added comfort. Soft Line leather is treated with a delicate, protective finish that protects against stains and improves resistance to liquids. Soft Line is an ideal solution for families that want to enjoy the pleasure of quality leather furniture without having to alter their normal routines in order to maximize the life of their furniture.

## SOFT LINE

**Astro Line** Semi-anilin: Although the term is typically defined as being only partially aniline dyed, aniline dyeing is in fact only part of the process. The term semi-aniline means that some surface pigments have been applied to the natural leather to even out tones, mask blemishes and make it more resistant to liquids. Compared to pure aniline leather, semi-aniline leathers offer improved resistance to spills and environmental factors. Astro Line leather is slightly thicker than other furniture leather while still maintaining a natural softness and excellent resistance to wear and tear..

## 5. TROUBLESHOOTING

If you encounter any issues with your Fjords Mustang Recliner, please refer to the following common solutions.

### 5.1 Reclining Mechanism Not Smooth

- **Check for Obstructions:** Ensure there are no objects obstructing the movement of the chair or ottoman.
- **Verify Assembly:** Confirm that all assembly bolts are securely tightened. Loose connections can affect smooth operation.
- **Lubrication:** If the mechanism feels stiff, a small amount of silicone-based lubricant can be applied to moving metal parts (avoid contact with leather or wood).

### 5.2 Squeaking Noises

- **Tighten Connections:** Squeaking often indicates loose connections. Re-tighten all bolts on the chair and ottoman bases.
- **Inspect Joints:** Check all joints for any signs of wear or friction.

### 5.3 Headrest Adjustment Issues

- **Gentle Force:** The Active Release System is designed for smooth adjustment. Avoid excessive force.
- **Check for Debris:** Ensure no foreign objects are lodged in the headrest mechanism.

If these steps do not resolve the issue, please refer to the Warranty and Support section for further assistance.
