Taiyo 200000A

# Taiyo RC Amphibious Skimmer Car User Manual

Model: 200000A

## INTRODUCTION

Thank you for choosing the Taiyo RC Amphibious Skimmer Car. This remote-controlled vehicle is designed for versatile performance on both land and water, featuring 4x4 drive, durable tires, 360-degree rotation, and the ability to perform exciting stunts. This manual provides essential information for safe operation, setup, maintenance, and troubleshooting.

## SAFETY INFORMATION

---

Please read and understand all safety warnings before operating the vehicle. Failure to do so may result in injury or damage to the product.

- **Age Recommendation:** This product is recommended for ages 3 years and above. Adult supervision is advised for younger users.
- **Battery Safety:**
  - Do not mix old and new batteries.
  - Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
  - Insert batteries with correct polarity (+ and -).
  - Remove exhausted batteries from the product.
  - Remove batteries if the product is not to be used for a long period.
  - Do not short-circuit the supply terminals.
  - Non-rechargeable batteries are not to be recharged.
  - Rechargeable batteries are only to be charged under adult supervision.
- **Water Use:** While amphibious, ensure all battery compartments are securely sealed before operating in water. Do not submerge the remote control.
- **Choking Hazard:** Small parts may be present. Keep away from children under 3 years.
- **Operating Environment:** Operate in open areas free from obstacles, people, and pets. Avoid operating near electrical wires, roads, or bodies of water where the remote control could get wet.
- **Heat:** Do not expose the vehicle or remote control to extreme temperatures or direct sunlight for prolonged periods.

## PACKAGE CONTENTS

---

Verify that all items listed below are included in your package:

- Taiyo RC Amphibious Skimmer Car (1 unit)
- Remote Control (1 unit)
- User Manual (this document)

## SETUP

---

### 1. Battery Installation

The Taiyo RC Amphibious Skimmer Car and its remote control require batteries (not included).

#### For the RC Car:

1. Locate the battery compartment on the underside of the car.
2. Use a screwdriver to open the battery compartment cover.
3. Insert the required batteries (refer to the car's compartment for battery type and quantity, typically AA or AAA, or a rechargeable pack). Ensure correct polarity.
4. Securely close the battery compartment cover and tighten the screw.

#### For the Remote Control:

1. Locate the battery compartment on the back of the remote control.
2. Open the battery compartment cover.
3. Insert the required batteries (typically 2x AA or AAA). Ensure correct polarity.
4. Close the battery compartment cover.

### 2. Pairing the Remote Control

The car and remote control are usually pre-paired. If they do not connect automatically:

1. Ensure both the car and remote control have fresh batteries installed and are turned OFF.
2. Turn ON the RC car.
3. Within 5 seconds, turn ON the remote control.

4. The indicator light on the remote should stop flashing and remain solid, indicating a successful connection.
5. If pairing fails, turn both devices OFF and repeat the steps.

## OPERATING INSTRUCTIONS

---

### Basic Controls:

- **Forward/Backward:** Push the left joystick (or trigger) forward to move the car forward, pull backward to move backward.
- **Turn Left/Right:** Push the right joystick (or turn wheel) left to turn left, right to turn right.

### Special Features:

- **360-Degree Rotation:** Push both joysticks in opposite directions (e.g., one forward, one backward) to make the car spin in place.
- **Acrobatic Stunts:** The car's robust design allows it to flip over and continue driving. Experiment with different speeds and turns to perform rolls and flips. The car is designed to land on its wheels and continue operation.
- **Amphibious Mode:** Ensure all battery compartments are sealed. Drive the car into water. The unique wheel design allows it to propel itself through water. Avoid deep water or strong currents.
- **4x4 Drive:** The car's four-wheel drive system provides excellent traction on various terrains, including rough surfaces, grass, and shallow water.

## MAINTENANCE

- **Cleaning:** After use, especially after water play, wipe the car with a damp cloth to remove dirt and debris. Do not use harsh chemicals. Ensure the car is completely dry before storing.
- **Battery Care:** Always remove batteries from the car and remote control when not in use for extended periods. Store batteries in a cool, dry place.
- **Storage:** Store the car and remote control in a cool, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically check for loose screws, damaged parts, or worn tires. Replace damaged parts as necessary.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Car does not move.	Batteries are dead or incorrectly installed. Car or remote is turned off. Not paired correctly.	Replace batteries or check polarity. Turn on both car and remote. Re-pair the remote control (refer to Setup section).
Poor control range.	Low batteries in remote or car. Interference from other RC devices or electronics. Operating too far from the car.	Replace batteries. Move to an area with less interference. Operate within the recommended range.
Car flips over and doesn't recover.	Operating on extremely uneven terrain. Loss of traction.	Adjust driving style or move to a flatter surface. The car is designed to self-right; try small steering inputs to help it.

## SPECIFICATIONS

Feature	Detail
Product Dimensions	43.4 x 18 x 23.8 cm; 920 grams
Recommended Age	3 years and up
Model Number	200000A
Material	Plastic
Scale	1:20 scale
Batteries Required	Yes (not included)
Remote Control Included	Yes
Special Feature	Portable, Amphibious, 360-degree rotation, 4x4 drive

## WARRANTY AND SUPPORT

This product comes with a standard manufacturer's warranty. For specific warranty details, please refer to the packaging or contact your retailer.

For technical support, replacement parts, or any inquiries not covered in this manual, please contact Taiyo customer service through their official website or the contact information provided on the product packaging.

*Please retain your purchase receipt as proof of purchase for warranty claims.*
