- **Storage:** When not in use, store the bag in a cool, dry place away from direct sunlight to prevent material degradation.
- **Wheel Inspection:** Periodically check the wheels for any accumulated debris (e.g., dirt, hair, string) and ensure they roll freely. Clean the axles as necessary.
- **Zipper Care:** Keep zippers clean. If they become stiff, apply a small amount of zipper lubricant or wax to the zipper teeth and gently work the zipper back and forth. Avoid forcing stuck zippers.

6. Troubleshooting

- **Issue:** Wheels are not rolling smoothly.
Solution: Check for debris caught in the wheel axles. Clean thoroughly. Ensure the wheels are not damaged.
- **Issue:** Zippers are sticking or difficult to operate.
Solution: Apply a small amount of zipper lubricant or wax to the zipper teeth. Gently work the zipper back and forth. Avoid forcing the zipper, as this can cause damage.
- **Issue:** Bag does not stand upright stably.
Solution: Ensure the golf bag and clubs inside are evenly distributed. The travel bag is designed to stand with a golf bag inside, but uneven loading or external factors can affect stability.
