## MAINTENANCE

Proper care will ensure the longevity and appearance of your VASAGLE DAIN TREE hall tree.

- **Cleaning:** Wipe down the particleboard surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish. For the steel frame and mesh shelves, a mild soap solution can be used. Dry thoroughly after cleaning.
- **Dusting:** Regularly dust all surfaces with a dry, soft cloth to prevent dust buildup.
- **Stability Check:** Periodically check all screws and bolts to ensure they are tight. Re-tighten if necessary to maintain stability.
- **Avoid Overloading:** Adhere to the specified weight limits for the bench (220 lb / 100 kg) and each mesh shelf (44 lb / 20 kg), and each hook (6.6 lb / 3 kg) to prevent damage.
- **Protect from Moisture:** While the rustic brown finish is durable, avoid prolonged exposure to excessive moisture to prevent warping or damage to the particleboard.
