

**Floxite 7081-10V**

# **Floxite 10x/1x Daylight Cosmetic Mirror User Manual**

Model: 7081-10V

## **INTRODUCTION**

---

The Floxite Daylight Cosmetic Mirror is designed to provide clear, illuminated magnification for detailed cosmetic application and grooming. It features dual magnification (10x and 1x) and bright, white LED lighting for optimal visibility. The mirror is constructed with DFP™ distortion-free glass and a superior chrome finish, making it a functional and elegant addition to any space.

## SAFETY INFORMATION

Please read and understand all safety instructions before using your Floxite Cosmetic Mirror.

- Handle with care to prevent damage to the mirror and potential injury.
- Do not place the mirror on unstable or uneven surfaces where it could tip over.
- Keep the mirror out of reach of children and pets to avoid accidental damage or injury.
- In case of breakage, handle glass fragments carefully and dispose of them safely to prevent cuts.
- Ensure the AC adapter is properly connected and routed to prevent tripping hazards.
- Do not immerse the mirror or its electrical components in water or other liquids.
- Avoid direct eye exposure to the LED light for prolonged periods.

## SETUP

Your Floxite Cosmetic Mirror is designed for easy setup and immediate use.

1. **Unpacking:** Carefully remove all components from the packaging. Ensure the mirror, stand, and AC adapter are present.
2. **Placement:** Place the mirror on a stable, flat surface, such as a vanity or countertop.
3. **Power Connection (AC Adapter):** Insert the small end of the included AC adapter into the power port located on the base of the mirror. Plug the other end of the AC adapter into a standard electrical outlet.
4. **Power Connection (Batteries - Optional):** For cordless operation, the mirror can be powered by batteries (not included). Locate the battery compartment on the underside of the base. Insert the required number and type of batteries, ensuring correct polarity. Close the battery compartment securely.

## OPERATING INSTRUCTIONS

Using your Floxite Cosmetic Mirror is straightforward.

1. **Selecting Magnification:** The mirror features two sides: one with 1x (true image) magnification and the other with 10x magnification for detailed viewing. To switch between magnifications, gently rotate the mirror head on its swivel axis.
2. **Adjusting Viewing Angle:** The mirror head can be tilted up or down to achieve your preferred viewing angle.
3. **Turning On/Off and Adjusting Light:** The LED lighting system is controlled by a switch on the base.
  - Press the switch once for high brightness.
  - Press the switch a second time for medium brightness.
  - Press the switch a third time to turn the light off.

The LED bulbs are designed to never need replacing, providing consistent, bright, white, glare-free lighting.

No official product videos from the seller are available for embedding at this time.

## MAINTENANCE

Proper care will ensure the longevity and performance of your Floxite Cosmetic Mirror.

- **Cleaning the Mirror Surface:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray the cleaner onto the cloth, not directly onto the mirror, then wipe gently. Avoid harsh chemicals or abrasive materials that could scratch the glass or damage the finish.
- **Cleaning the Base and Frame:** Wipe the chrome finish with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed by immediate drying.
- **Storage:** When not in use for extended periods, store the mirror in a dry, safe place away from direct sunlight or extreme temperatures.
- **Battery Replacement:** If using batteries, replace them when the light dims or stops functioning. Ensure to use the correct battery type and dispose of old batteries responsibly.

## TROUBLESHOOTING

If you encounter issues with your Floxite Cosmetic Mirror, refer to the following common solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power connection, dead batteries, or switch malfunction.	Ensure AC adapter is securely plugged into both the mirror and the outlet. If using batteries, check if they are correctly inserted or need replacement. Try cycling the light switch through all settings.
Light is dim or flickers.	Low battery power or insufficient power from AC adapter.	Replace batteries if operating cordlessly. If using AC adapter, try a different outlet.

Problem	Possible Cause	Solution
Mirror image is distorted.	Incorrect viewing distance for magnified side, or mirror surface is dirty.	For the 10x magnification side, position your face closer to the mirror (typically within a few inches) for a clear, non-distorted image. Clean the mirror surface as per maintenance instructions.
Mirror is unstable.	Placed on an uneven surface or base is not secure.	Ensure the mirror is placed on a flat, stable surface. Check the connection between the mirror stand and the base for any looseness.

## SPECIFICATIONS

- **Model Number:** 7081-10V
- **Brand:** Floxite
- **Magnification:** 10x / 1x
- **Lighting:** LED (never needs replacing)
- **Glass Type:** DFP™ Distortion Free Glass
- **Finish:** Superior Chrome
- **Power Source:** AC Adapter (included) or Batteries (not included)
- **Product Dimensions:** Approximately 16"L x 8"W (mirror face), Overall 7 x 13 x 17 inches
- **Item Weight:** 4.73 Pounds
- **Mounting Type:** Tabletop Mount
- **UPC:** 744855085460
- **Manufacturer:** Floxite Company, Inc.

## WARRANTY AND SUPPORT

For information regarding warranty coverage, product support, or replacement parts, please contact Floxite Company, Inc. directly. Refer to the product packaging or the official Floxite website for the most current contact information and warranty details. It is recommended to retain your purchase receipt as proof of purchase for warranty claims.
