TINGLEY 31251

TINGLEY 31251 General Purpose Rubber PVC Knee Boots

Model: 31251 | Brand: TINGLEY

1. PRODUCT OVERVIEW

The TINGLEY 31251 General Purpose Rubber PVC Knee Boots are designed for individuals working in wet and muddy conditions. These boots offer reliable protection and comfort for all-day wear. Their construction focuses on durability and ease of movement in challenging environments.

Figure 1: TINGLEY 31251 General Purpose Rubber PVC Knee Boots.

2. KEY FEATURES

- **100% Waterproof Protection:** Achieved through injection molded construction, ensuring feet remain dry in wet environments.
- **Flexible Upper Material:** Stays supple even in cold temperatures, enhancing walking comfort and reducing fatigue.
- **Durable Outsole:** Made from a tougher material for improved abrasion resistance, extending the lifespan of the boots.
- **Self-Cleaning Cleated Outsole:** Designed to shed debris as you walk, maintaining traction and reducing mud buildup.
- **Removable Cushion Insole:** Wicks away perspiration to help keep feet dry and comfortable throughout the day.
- **Plain Toe Design:** Provides general protection suitable for various work environments.
- **Knee-High Design:** Offers extended protection against water and debris.

3. SETUP AND PREPARATION

Before first use, please follow these steps:

1. **Unpack:** Carefully remove the boots from their packaging.
2. **Inspect:** Examine both boots for any signs of damage or manufacturing defects. If any issues are found, do not use the boots and contact customer support.
3. **Sizing:** Ensure the boots are the correct size for your feet. Refer to the sizing chart below for guidance. Proper fit is crucial for comfort and safety.

Mens U.S Size	Womens U.S. Size
3	5
4	6
5	7
6	8
7	9
8	10
9	11
10	12
11	13
12	N/A
13	N/A
14	N/A
15	N/A
16	N/A

Figure 2: TINGLEY Footwear Sizing Chart. Please note that sizes 12-16 are typically only available in Mens U.S. sizes.

4. OPERATING AND USAGE

These boots are designed for general purpose use in environments requiring waterproof footwear and basic foot protection.

- **Wearing:** Pull the boots on, ensuring your foot is comfortably seated and the removable insole is flat. The pull-on closure allows for easy donning and doffing.
- **Intended Use:** Ideal for agricultural work, general construction, outdoor activities, or any situation where protection from water, mud, and light debris is necessary.
- **Safety:** While providing general protection, these boots feature a plain toe and are not certified as safety-toe footwear (e.g., steel toe or composite toe) unless explicitly stated on the product or packaging. Always assess the specific hazards of your work environment.

5. MAINTENANCE AND CARE

Proper care will extend the life and performance of your TINGLEY boots.

- **Cleaning:** After each use, especially in muddy conditions, rinse the boots thoroughly with water to remove dirt and debris. A soft brush can be used for stubborn grime.
- **Drying:** Allow the boots to air dry completely at room temperature. Avoid direct heat sources like radiators or direct sunlight, as this can damage the PVC material.
- **Storage:** Store boots in a cool, dry place away from direct sunlight and extreme temperatures. Ensure they are clean and dry before storing.
- **Insole Care:** The removable insole can be taken out and air-dried separately to prevent odor and maintain hygiene.

6. TROUBLESHOOTING

Common issues and their solutions:

- **Discomfort:** Ensure you have the correct size. Try different socks. The removable insole can be replaced if worn out.
- **Slipping:** Regularly clean the cleated outsole to ensure it can effectively shed debris and maintain traction. Inspect the sole for excessive wear.
- **Odor:** Remove and air-dry the insoles after each use. If odor persists, clean the inside of the boots with a mild soap solution and allow to air dry completely.

7. SPECIFICATIONS

Model Number	31251
Brand	TINGLEY
Item Type	Boot / Black
Height	15 inches
Material	Polyvinyl Chloride (PVC)
Water Resistance Level	Waterproof
Toe Type	Plain Toe
Closure Type	Pull-On

Sole Material	Rubber, Polyvinyl Chloride
Item Weight	7.5 Pounds
