# EdgeStar BBR901BL 15-Inch Built-In Beverage Center User Manual

Model: BBR901BL

## 1. IMPORTANT SAFETY INFORMATION

Read all instructions before using this appliance to reduce the risk of fire, electric shock, or injury. Keep this manual for future reference.

- Ensure the unit is properly grounded.
- Do not operate the unit with a damaged power cord or plug.
- Avoid placing flammable materials near the appliance.
- Do not allow children to operate or play with the appliance.
- Disconnect power before cleaning or performing maintenance.
- For built-in installations, ensure adequate ventilation as specified in the installation section.

## 2. PRODUCT OVERVIEW

The EdgeStar BBR901BL is a 15-inch wide built-in beverage center designed for efficient cooling and convenient storage of beverages. It features a compressor-based cooling system, digital controls, and blue LED interior lighting.

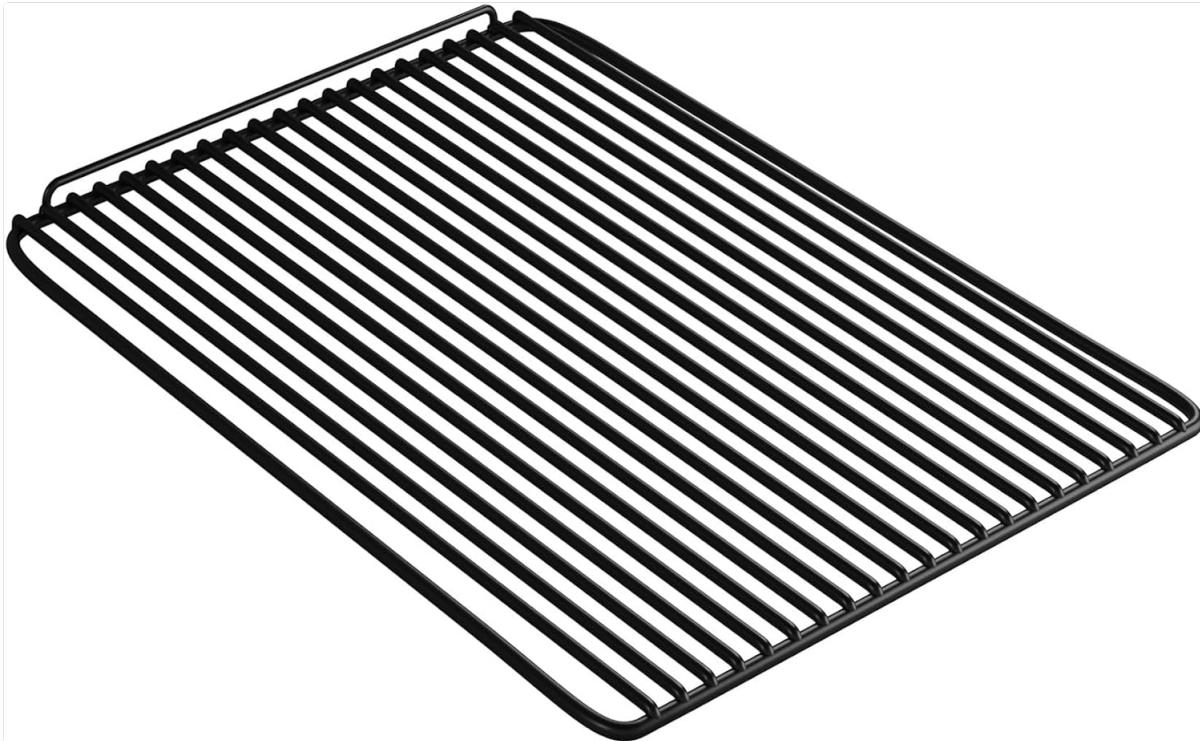

EdgeStar BBR901BL beverage center filled with various canned drinks, showcasing its capacity and interior lighting.

## Key Features:

- **Compact Design:** 15-inch width suitable for various spaces, including under-counter installation.
- **Efficient Cooling:** Compressor-based system for rapid and consistent cooling.
- **Digital Controls:** Push-button controls and a digital display for precise temperature management.
- **Temperature Range:** Maintains temperatures between 38°F and 50°F.
- **Interior Lighting:** Blue LED lighting enhances visibility and presentation.
- **Adjustable Shelves:** Three secure wire shelves for flexible storage.
- **Auto Defrost:** Automatic defrosting function for convenience.
- **Alarms:** High/low temperature alarm and door ajar alarm for operational safety.
- **Reversible Door:** Door swing can be reversed to suit installation requirements.

## 3. SETUP AND INSTALLATION

Proper installation is crucial for the performance and longevity of your beverage center. This unit can be installed as a built-in or free-standing appliance.

### 3.1 Unpacking and Placement

- Remove all packaging materials, including foam and tape.
- Allow the unit to stand upright for at least 24 hours before plugging it in. This allows the refrigerant fluids to settle.
- Place the unit on a flat, level surface away from direct sunlight and heat sources.
- Ensure the installation area is protected from elements such as wind and rain.

### 3.2 Ventilation Requirements

This unit is front-ventilated, allowing for under-counter installation flush with existing cabinetry. However, proper clearance is still necessary:

- For built-in installations, allow a minimum of 1 to 2 inches of clearance at the back for proper ventilation and service access.
- The unit must be installed in an area that allows it to be pulled forward for servicing.

EdgeStar BBR901BL beverage center seamlessly integrated under a kitchen counter.

### 3.3 Leveling the Unit

Adjust the leveling legs at the bottom of the unit to ensure it is stable and level. This prevents vibrations and ensures proper door sealing.

### 3.4 Door Reversal

The unit is shipped with a right-hand door swing. The door can be reversed to a left-hand swing to better suit your space. Refer to the detailed instructions in the full owner's manual for the door reversal procedure.

### 3.5 Electrical Connection

Ensure the power outlet meets the unit's requirements (115 Volts, 120 Watts). Plug the unit into a dedicated, grounded electrical outlet.

#### 4. OPERATING INSTRUCTIONS

Your EdgeStar beverage center is equipped with user-friendly controls for easy operation.

## 4.1 Control Panel

The control panel is located at the top interior of the unit and features a digital display and push-button controls.

Digital control panel of the EdgeStar BBR901BL beverage center displaying temperature and control buttons.

## 4.2 Setting the Temperature

- Use the **UP** and **DOWN** arrow buttons on the control panel to adjust the desired temperature.
- The digital display will show the set temperature. The unit will then work to reach and maintain this temperature.
- The recommended operating temperature range is 38°F to 50°F.

## 4.3 Interior Lighting

Press the **LIGHT** button on the control panel to turn the blue LED interior light on or off.

## 4.4 Alarms

The unit is equipped with the following alarms:

- **High/Low Temperature Alarm:** Alerts you if the internal temperature deviates significantly from the set temperature.
- **Door Ajar Alarm:** Sounds if the door is left open for an extended period, helping to conserve energy and maintain temperature.

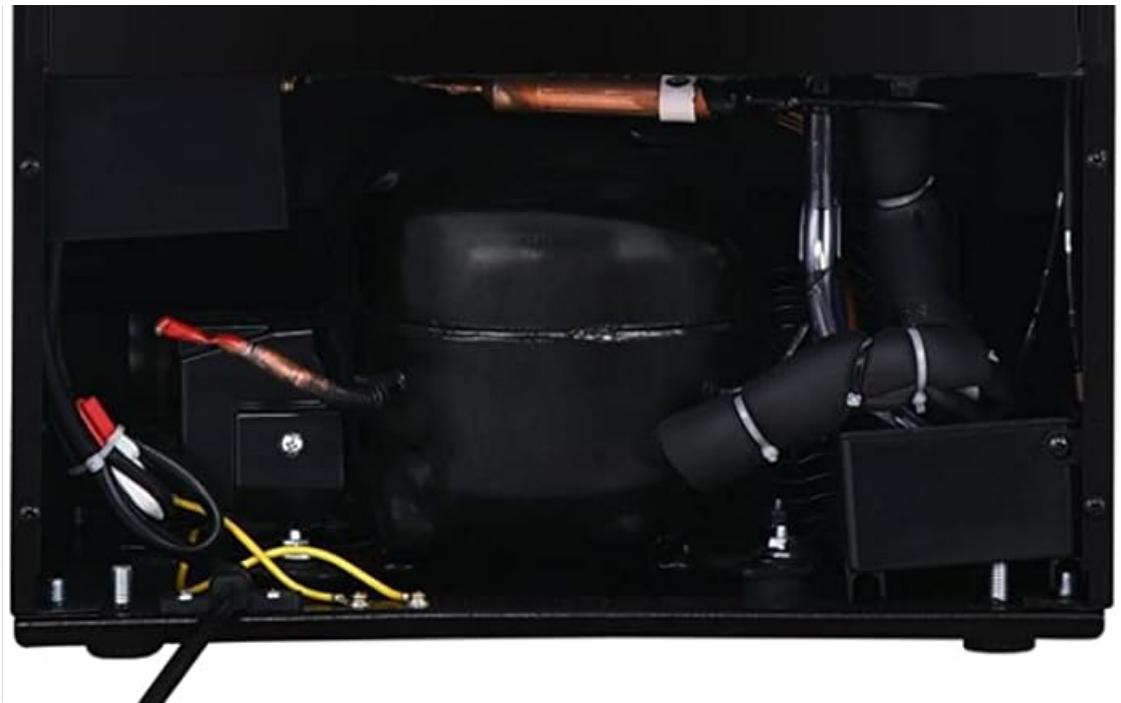

## 5. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your beverage center.

## 5.1 Cleaning

- Always unplug the unit before cleaning.
- Clean the interior with a mild detergent and warm water. Avoid abrasive cleaners.
- Wipe down the exterior with a soft cloth and mild cleaner.
- Periodically clean the condenser coils at the back of the unit with a soft brush or vacuum cleaner to ensure efficient operation.

Rear view of the EdgeStar BBR901BL beverage center, showing the compressor unit and ventilation.

## 5.2 Defrosting

This unit features an automatic defrost system. Frost buildup on the evaporator will melt and drain into a drip tray, where it evaporates. Manual defrosting is generally not required.

## 6. TROUBLESHOOTING

Review this section for common issues and their solutions before contacting customer service.

Problem	Possible Cause	Solution
Unit does not operate	No power; circuit breaker tripped; unit not plugged in.	Check power supply; reset circuit breaker; ensure plug is securely inserted.
Unit is not cooling sufficiently	Door not closed properly; excessive door openings; unit near heat source; poor ventilation; temperature set too high.	Ensure door is sealed; reduce door openings; relocate unit; check rear clearance; lower set temperature.
Unit is noisy	Unit not level; objects touching the unit; normal compressor operation.	Adjust leveling legs; ensure no contact with walls or cabinets; some compressor noise is normal.
Water on floor	Drain tube clogged or disconnected.	Clear drain tube; ensure it is properly connected to the drip tray.
Digital display not working	Power issue; control panel malfunction.	Check power; if issue persists, contact customer support.
