**Monster Smart Illuminessence 6.5ft Wi-Fi Multi-Color LED
Light Strip**
USER MANUAL

Product Overview

The Monster Smart Illuminessence 6.5ft Wi-Fi Multi-Color LED Light Strip provides customizable lighting for various indoor environments. This smart light strip offers millions of color possibilities, app control, and voice control compatibility with popular smart home assistants. It is designed for easy installation and can enhance the ambiance of bedrooms, offices, living rooms, and more.

The Monster Smart Illuminessence LED Light Strip, shown here in its retail packaging, is a 6.5-foot multi-color LED strip designed for smart home integration.

Safety Information

- This product is intended for indoor use only. Do not expose to water or moisture.
- Ensure the power source voltage matches the product's specifications (110 Volts).
- Do not cut or modify the LED strip unless specifically instructed by the manufacturer.
- Keep out of reach of children.
- Avoid direct eye exposure to the LED lights for prolonged periods.

Package Contents

Verify that all items are present in the package:

- Monster Smart Illuminessence 6.5ft LED Light Strip
- USB Power Cable
- Mounting Clips
- User Manual (this document)

Setup

1. Physical Installation

Before installation, ensure the surface is clean, dry, and smooth for optimal adhesion. The light strip features an adhesive backing for easy mounting.

1. Unroll the LED light strip carefully.
2. Peel off a small section of the adhesive backing from one end of the strip.
3. Press the exposed adhesive firmly onto the desired surface, ensuring it adheres properly.
4. Continue peeling and pressing the strip along the surface, applying gentle pressure to secure it.
5. Use the provided mounting clips for additional security, especially on corners or uneven surfaces.
6. Connect the USB power cable to the light strip and then to a compatible USB power adapter (not included) or USB port.

The image illustrates the peel-and-stick installation method for the LED light strip, showing the adhesive backing being removed.

2. App and Network Connection

To unlock the full features of your Monster Smart Illuminence LED Light Strip, download and connect it to the Monster Smart App.

1. Download the "Monster Smart App" from the Apple App Store (for iOS devices) or Google Play Store (for Android devices).
2. Open the app and create an account or log in.

3. Ensure your mobile device is connected to a 2.4GHz Wi-Fi network.
4. Follow the in-app instructions to add your new LED Light Strip. This typically involves powering on the device, putting it into pairing mode (often by cycling power), and confirming the device in the app.
5. Once connected, you can control the light strip directly from the app.

A hand is shown interacting with the Monster Smart App on a smartphone, demonstrating the color selection interface for the light strip.

Operating Instructions

1. Smart App Control

The Monster Smart App provides comprehensive control over your LED light strip:

- **Color Selection:** Choose from over 16 million colors using the color wheel.
- **Brightness Adjustment:** Dim or brighten the lights to your preferred level.
- **Scene Modes:** Select from pre-set scenes or create custom lighting effects.
- **Scheduling:** Set timers and schedules for the lights to turn on/off or change modes automatically.

2. Voice Control

Integrate your light strip with voice assistants for hands-free control:

- **Amazon Alexa:** Enable the Monster Smart skill in the Alexa app. Use commands like "Alexa, turn on the LED strip" or "Alexa, set LED strip to blue."
- **Google Assistant:** Link your Monster Smart account in the Google Home app. Use commands like "Hey Google, change LED strip to red" or "Hey Google, dim the LED strip."
- **Siri:** Utilize Siri Shortcuts for quick commands.

3. Advanced Features

The light strip supports advanced integrations for an enhanced experience:

- **Razer Chroma RGB:** Sync your light strip with Razer Chroma-enabled devices for immersive gaming lighting effects.
- **TV Sync:** Enhance your entertainment by syncing the light strip's colors with the content on your TV screen.

The image displays a television with the LED light strip providing green backlighting, illustrating its use for ambient lighting or TV sync.

This video, titled "Monster Smart Lighting," demonstrates various applications and features of Monster Smart Lighting products, including color changes, app control, and integration into different home environments.

Maintenance

To ensure the longevity and optimal performance of your LED light strip, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the surface of the LED strip with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** If storing the light strip, ensure it is clean and dry. Coil it loosely to prevent damage to the LEDs or wiring.
- **Adhesive:** The adhesive is designed for single application. Repeated removal and reapplication may reduce its effectiveness.

Troubleshooting

Problem	Possible Cause	Solution
Light strip does not turn on.	No power, loose connection, faulty power adapter.	Check USB power connection. Ensure power adapter is working. Try a different USB port or adapter.
Cannot connect to Wi-Fi.	Incorrect Wi-Fi band, wrong password, device not in pairing mode.	Ensure you are on a 2.4GHz Wi-Fi network. Double-check Wi-Fi password. Follow app instructions to put device into pairing mode (e.g., power cycle).
Voice control not working.	Voice assistant not linked, incorrect commands.	Verify Monster Smart account is linked in Alexa/Google Home app. Use precise commands as listed in the app or voice assistant documentation.
Lights are not displaying correct colors.	App setting issue, strip damage.	Check color settings in the Monster Smart App. If only a section is affected, the strip may be damaged.

Specifications
