

Nite Ize PSLGR-07S-R6

Nite Ize SpotLit XL Rechargeable Collar Light - Disc-O Select Instruction Manual

INTRODUCTION

This manual provides essential information for the safe and effective use of your Nite Ize SpotLit XL Rechargeable Collar Light, Disc-O Select model. This bright, rechargeable LED light is designed to enhance the visibility of your pet during nighttime or low-light conditions, featuring multiple color modes and a durable, weather-resistant design.

SAFETY INFORMATION

- Supervised use only.
- Ingestion of this product can result in serious injury.
- Discontinue use if damaged.
- **Battery Warning:** Do not ingest battery. Chemical burn hazard.

SETUP

Initial Charging

Before first use, fully charge the SpotLit XL. Locate the micro-USB charging port on the back of the unit. Connect a micro-USB cable (not included) to the port and to a power source. The indicator light will be red while charging and turn green when fully charged. A full charge takes approximately 90 minutes.

Attaching the Light

The SpotLit XL features a durable stainless steel carabiner clip for easy attachment. Simply clip it onto your pet's collar, harness, or other gear. Ensure it is securely fastened to prevent loss.

OPERATING INSTRUCTIONS

Power On/Off and Mode Selection

The SpotLit XL is operated by a single tactile button located on the back of the unit. Press the button to cycle through the available light modes:

1. **First Press:** Activates Disc-O Select mode, which cycles through multiple colors.
2. **Subsequent Presses:** Cycles through fixed colors (Red, Green, Blue, White).
3. **Press and Hold:** Turns the light off.

MAINTENANCE

Recharging

The SpotLit XL provides up to 10 hours of run time on a single charge. When the light dims or stops functioning, it requires recharging. Connect it to a micro-USB power source as described in the Setup section. The charging indicator will be red and turn green when fully charged (approx. 90 minutes).

Cleaning

To clean the light, wipe it with a damp cloth. Do not use harsh chemicals or abrasive materials. Ensure the charging port cover is securely closed before cleaning or exposing to water.

Weather Resistance

The SpotLit XL is designed to be weather-resistant, making it suitable for outdoor use in various conditions. However, it is not intended for submersion in water.

TROUBLESHOOTING

Light Not Turning On or Charging

- Ensure the unit is fully charged. Connect it to a power source and check if the indicator light turns red. If it shows an unusual color (e.g., orange) or no light, the battery may be depleted or damaged.
- Verify the charging cable and power source are functional.
- If the light does not respond after charging, the internal battery may have reached its end of life.

Light Turns Off Unexpectedly

- This typically indicates a low battery. Recharge the unit promptly. The light does not gradually dim but will turn off when the battery is depleted.

SPECIFICATIONS

Feature	Detail
Model Number	PSLGR-07S-R6
Dimensions	8 x 6 x 1 inches
Weight	0.63 ounces (0.02 kg)
Battery Type	1 Lithium Polymer (included)
Power Source	Rechargeable
Light Source Type	LED
Light Output Maximum	50 lumens
Runtime	Up to 10 hours
Recharge Time	Approx. 1.5 hours
