Model: VR05

## INTRODUCTION

---

The eoqo VR05 is a compact 8GB digital voice recorder designed for clear audio capture in various settings such as lectures, meetings, and interviews. It features simple one-button operation, voice activation, and noise reduction technology for high-quality sound.

### What's in the Box:

- Mini Voice Recorder
- USB Cable
- User Manual

## SETUP

---

### Charging the Device:

Before first use, fully charge the eoqo VR05 Digital Voice Recorder. Connect the supplied Micro USB cable to the recorder and then to a USB power source (e.g., computer USB port, USB wall adapter). A full charge typically takes approximately 3 hours and provides up to 15 hours of continuous recording.

## OPERATING INSTRUCTIONS

### One-Click Recording:

The VR05 features a simple slide switch for recording control. To begin recording, slide the multi-function switch to the **left position** for continuous recording. The blue indicator light will flash to confirm recording is active. To stop and save the recording, slide the switch to the **middle position** (Power Off). The device will save the current recording and power down.

## Voice Activated Recording:

To enable voice-activated recording, slide the multi-function switch to the **right position**. In this mode, the recorder will automatically start recording when sound is detected and pause when silence occurs, conserving memory and listening time. The red indicator light will flash to confirm voice activation mode is active. To stop and save, slide the switch to the **middle position** (Power Off).

### Playback:

To listen to your recordings, connect the included headphones to the recorder's USB port. Then, slide the multi-function switch to the **right position** (Voice Activated mode, which also functions as playback mode when headphones are connected). Use the volume buttons (+/-) on the side of the device to adjust the playback volume.

## MAINTENANCE

To ensure the longevity of your eoqo VR05 Digital Voice Recorder, keep it away from extreme temperatures, direct sunlight, and moisture. Clean the device with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. Store the device in a safe place when not in use.

## TROUBLESHOOTING

- **Device not recognized by computer:** Ensure the USB cable is securely connected to both the recorder and the computer. Try a different USB port or cable. Restart your computer and try again.
- **No sound during playback:** Check if the headphones are properly plugged in. Ensure the volume is turned up using the +/- buttons.
- **Recording indicator light not flashing:** Verify the multi-function switch is in either the "Voice Recording" (left) or "Voice Activated" (right) position. Ensure the battery is charged.
- **Short battery life:** Ensure the device is fully charged before use. Avoid leaving the device in recording mode unnecessarily.
