Arteck 2.4G Wireless Keyboard and Mouse Combo User Manual

Model: HW086MW162

INTRODUCTION

This manual provides comprehensive instructions for the Arteck 2.4G Wireless Keyboard and Mouse Combo. Designed for optimal comfort and efficiency, this ultra-compact, slim, stainless steel full-size keyboard and ergonomic mouse are compatible with various devices including computers, desktops, PCs, laptops, and Windows 10/8/7 operating systems. Both devices feature built-in rechargeable batteries for extended use.

Figure 1: Arteck 2.4G Wireless Keyboard and Mouse Combo with USB receiver.

FEATURES

- **Easy Setup:** Simply insert the nano USB receiver (stored inside at the back of the mouse) into your computer and use the keyboard and mouse instantly.
- **One USB Receiver for All:** Use the Keyboard and the Mouse with the same receiver, to save the USB port in your computer.
- **Long Life Rechargeable Battery:** Rechargeable lithium battery with an industry-high capacity lasts for 6 months for the keyboard and 4 months for the mouse with single charge (based on 2 hours non-stop use per day).
- **Ergonomic Design:** Stainless steel keyboard material gives heavy duty feeling, low-profile keys offer comfortable typing. Ergonomic mouse reduce stress and use more comfortably.
- **Quiet Typing:** The whisper-quiet, low-profile keys bring a whole new level of comfort to your fingertips.

- **Adjustable Mouse DPI:** The mouse DPI switch allows you to change the speed of the moving cursor (800 / 1000 / 1200 DPI).
- **Hot Keys:** Gain quick access to common functions, such as volume level, playback control, copy paste text, and more, with Windows-dedicated hot keys.

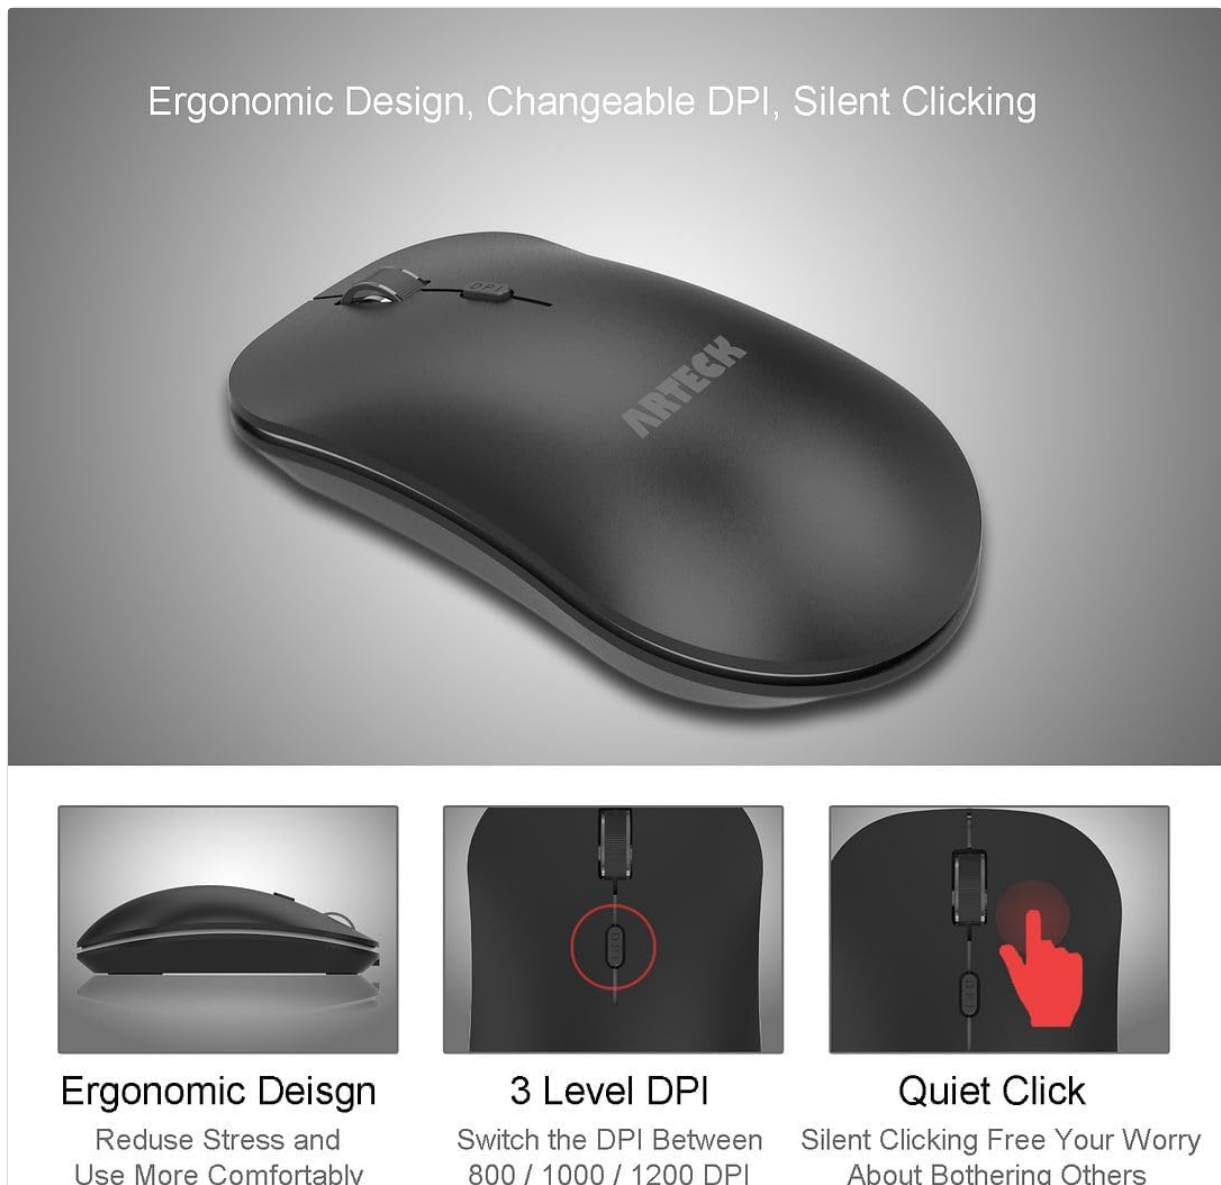

Figure 2: Ergonomic mouse design highlighting adjustable DPI and silent clicking.

SETUP GUIDE

1. **Locate the USB Receiver:** The nano USB receiver is conveniently stored inside the back compartment of the wireless mouse. Gently open the battery cover on the underside of the mouse to retrieve it.
2. **Insert the Receiver:** Plug the USB receiver into an available USB port on your computer, desktop, PC, or laptop.
3. **Power On Devices:**
 - For the keyboard, locate the power switch on the back edge and slide it to the "ON" position.
 - For the mouse, locate the power switch on the underside and slide it to the "ON" position.
4. **Automatic Connection:** The keyboard and mouse will automatically connect to your device. No additional drivers are required.

EASY SETUP

Plug the nano USB receiver and use

* The nano USB receiver is stored inside the back of the mouse.

The keyboard and the mouse share the same USB receiver to save the USB port.

Figure 3: Illustration of the easy setup process, showing the USB receiver and its storage location in the mouse.

OPERATING INSTRUCTIONS

Keyboard Usage

- **Typing:** The low-profile keys provide a comfortable and quiet typing experience.
- **Function Keys (F1-F12):** These keys often have secondary functions (media control, volume, etc.) when pressed in combination with the **Fn** key. Refer to your operating system's settings for specific hotkey functionalities.
- **Windows Hot Keys:** Dedicated hot keys provide quick access to common Windows functions.

Mouse Usage

- **Movement:** Move the mouse on a flat surface to control the cursor.
- **Clicking:** Left-click for selection, right-click for context menus. The mouse features silent clicking for a quiet environment.
- **DPI Adjustment:** Press the DPI switch button (located behind the scroll wheel) to cycle through 800, 1000, and 1200 DPI settings. This adjusts the cursor sensitivity and speed.
- **Scroll Wheel:** Use the scroll wheel for vertical scrolling in documents and web pages.

MAINTENANCE

Charging the Battery

Both the keyboard and mouse are equipped with built-in rechargeable lithium-polymer batteries. Use the provided

USB charging cable to recharge them.

- Connect the small end of the USB charging cable to the charging port on the keyboard/mouse.
- Connect the larger end of the USB charging cable to a USB power source (e.g., computer USB port, USB wall adapter).
- An indicator light will typically show charging status (e.g., red for charging, off or green for fully charged).
- A full charge provides approximately 6 months of use for the keyboard and 4 months for the mouse (based on 2 hours non-stop use per day).

Long Battery Life and Rechargeable

Keyboard use for 6 months per charge, based on 2 hours per day
Mouse use for 4 months per charge, based on 2 hours per day

Figure 5: Visual representation of the long battery life for both keyboard and mouse.

Cleaning

- Ensure both devices are powered off before cleaning.
- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution.
- Avoid excessive moisture and do not spray cleaners directly onto the devices.
- For keyboard keys, a can of compressed air can be used to remove dust and debris.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Keyboard/Mouse not responding	Low battery; USB receiver not properly connected; Devices not powered on; Interference.	Charge the devices; Re-insert the USB receiver firmly; Ensure power switches are ON; Move closer to the receiver or away from other wireless devices.
Lagging or erratic cursor movement	Low battery; Surface issues for mouse; Wireless interference; Incorrect DPI setting.	Charge the mouse; Use the mouse on a non-reflective, opaque surface; Reduce interference; Adjust mouse DPI.
Keys not typing correctly	Low battery; Software issue; Debris under keys.	Charge the keyboard; Restart your computer; Clean the keyboard with compressed air.
Cannot connect to device	USB receiver not recognized; Out of range.	Try a different USB port; Ensure devices are within 33 feet (10 meters) of the receiver.
