Invicta Specialty 29411 Women's Quartz Watch Instruction Manual

Model: 29411 | Brand: Invicta

INTRODUCTION

Thank you for choosing the Invicta Specialty 29411 Women's Quartz Watch. This manual provides detailed instructions to ensure proper use and care of your timepiece. Please read it thoroughly to understand its features and functions.

Figure 1: Front view of the Invicta Specialty 29411 Women's Quartz Watch, showcasing the champagne dial and gold-tone stainless steel band.

The Invicta Specialty 29411 features a 36mm stainless steel case, a champagne dial, and a gold-tone stainless steel band. It is equipped with a reliable quartz movement and is water-resistant up to 50 meters.

SETUP

1. Setting the Time

1. **Pull out the crown:** Gently pull the crown (the small knob on the side of the watch case) to the outermost position.

Figure 2: Side view of the watch, highlighting the crown used for setting the time.

2. **Adjust the time:** Turn the crown clockwise or counter-clockwise to move the hour and minute hands to the desired time.
3. **Push in the crown:** Once the time is set, push the crown back into its original position to secure the setting and restart the watch movement. Ensure the crown is fully pushed in to maintain water resistance.

2. Adjusting the Band

The gold-tone stainless steel band is designed for durability and comfort. If the band requires adjustment (e.g., to remove or add links), it is recommended to take the watch to a qualified jeweler or watch repair professional. Attempting to adjust the band without proper tools or experience may cause damage to the watch or injury.

Figure 3: The Invicta watch displayed on a wrist, illustrating how the band fits.

OPERATING

Reading the Time

Your Invicta Specialty 29411 watch features an analog display with hour, minute, and second hands. The champagne dial has clear markers for easy time reading.

Figure 4: Close-up view of the watch dial, showing the hour markers and hands.

Water Resistance

This watch is water-resistant up to 50 meters (5 ATM). This means it is suitable for short periods of recreational swimming, but not for diving or snorkeling. Avoid operating the crown while the watch is wet or submerged to prevent water intrusion.

Important: Water resistance is not a permanent condition and may diminish over time. Always ensure the crown is fully pushed in to maintain water resistance.

MAINTENANCE

Cleaning Your Watch

To maintain the appearance of your watch, wipe the case and band with a soft, dry cloth regularly. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid using harsh chemicals, solvents, or abrasive cleaners, as these can damage the watch's finish.

Battery Replacement

The watch is powered by a quartz movement, which requires a product-specific battery. When the watch stops running, it indicates the battery needs replacement. Battery replacement should be performed by a qualified watch technician to ensure the watch's integrity and water resistance are maintained.

Storage

When not wearing your watch, store it in a cool, dry place, away from direct sunlight and extreme temperatures. The original packaging can be used for safe storage.

Figure 5: The Invicta watch presented in its original packaging box.

- **Watch not running:** If the watch stops, the battery may need to be replaced. Consult a professional watch technician.
- **Time not setting:** Ensure the crown is fully pulled out to the time-setting position. If the issue persists, the movement may require inspection by a professional.
- **Condensation under crystal:** This indicates a loss of water resistance. Immediately take the watch to a professional for inspection and repair to prevent further damage to the movement.
- **Band discomfort:** If the band feels too tight or too loose, consider having it professionally adjusted.

SPECIFICATIONS

Feature	Detail
Model Number	29411
Case Diameter	36 mm
Case Material	Stainless Steel
Band Material	Stainless Steel
Band Color	Gold
Dial Color	Champagne (Beige)
Movement Type	Quartz
Crystal Type	Mineral Glass
Water Resistance Depth	50 Meters (5 ATM)
Clasp Type	Deployant Clasp
Item Weight	11.36 ounces
Product Dimensions	4.72 x 4.72 x 4.72 inches

WARRANTY

This Invicta watch is covered by a manufacturer's warranty. Please refer to the warranty card included with your purchase for specific terms, conditions, and duration. Keep your proof of purchase for warranty claims.
