SETUP AND WEARING INSTRUCTIONS

Follow these steps to correctly set up and wear your WSAUDIO headphones for optimal comfort and performance:

1. **Assemble the Headphones:** Ensure all joints of the headphones are securely connected. The headphones are designed to fold for compact storage; unfold them completely before wearing.
2. **Positioning:** Place the headphones over the back of your head, ensuring the earcups are positioned correctly over your ears.
3. **Adjusting for Comfort:** Gently open the earcups slightly to ensure your ear tips are comfortably inside the earcups.
4. **Secure Fit:** Place your thumbs under the two hinges located near the earcups and your fingers on the top of the headband. Gently bend the headband downwards to adjust the fit. This action triangulates the fit between your ears and the back of your neck, providing a secure and comfortable experience without pressing on glasses or causing discomfort.

OPERATING INSTRUCTIONS

The WSAUDIO headphones are designed for seamless integration with XP metal detectors, particularly the ORX model.

- **Power On/Off:** Locate the power button on the detachable control module. Press and hold to power on or off.
- **Volume Control:** Use the dedicated volume control buttons on the control module to adjust the audio level.
- **Pairing:** The headphones utilize XP's patented radio protocol for wireless communication. Refer to your ORX metal detector's manual for specific pairing instructions. The connection is 10 times faster than standard Bluetooth low latency technology.
- **Charging:** Connect the provided USB charging cable to the control module and a compatible USB power source. A full charge takes approximately 2 hours and provides up to 27 hours of battery life. An LED indicator on the headphones shows the battery level.

TROUBLESHOOTING

If you encounter issues with your WSAUDIO headphones, refer to the following common solutions:

- **No Sound:**
 - Ensure the headphones are powered on and charged.
 - Verify that the headphones are correctly paired with your XP metal detector.
 - Check the volume level on both the headphones and your metal detector.
- **Connection Issues:**
 - Ensure there are no obstructions between the headphones and the metal detector.
 - Re-attempt the pairing process as described in your metal detector's manual.
 - Move closer to the metal detector to rule out range issues.
- **Charging Problems:**
 - Confirm the USB cable is securely connected to both the headphones and the power source.
 - Try a different USB port or power adapter.

- Ensure the charging port on the headphones is clean and free of debris.
- **Discomfort While Wearing:**
 - Re-adjust the headphones following the "Setup and Wearing Instructions" section to ensure proper fit over your ears and around the back of your head.
