## Cecotec 05105

# Cecotec Compact 3D ForceAnodized 950 Smart i-Pump Ironing Center User Manual

Model: 05105

## INTRODUCTION

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your Cecotec Compact 3D ForceAnodized 950 Smart i-Pump Ironing Center. Please read it thoroughly before first use and keep it for future reference.

Figure 1: Cecotec Compact 3D ForceAnodized 950 Smart i-Pump Ironing Center, showcasing its sleek black design with red accents and the anodized soleplate.

## SAFETY INSTRUCTIONS

---

- Always ensure the appliance is unplugged before filling with water, cleaning, or when not in use.
- Do not immerse the ironing center in water or any other liquid.
- Keep out of reach of children and pets.
- Place the ironing center on a stable, heat-resistant surface during use.
- Do not touch the hot soleplate. Use the handle.
- If the power cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.
- This appliance is for household use only.

## SETUP

---

### 1. Unpacking

Carefully remove all packaging materials and check that all components are present and undamaged. Retain packaging for future storage or transport if needed.

### 2. Filling the Water Tank

Ensure the ironing center is unplugged and cool before filling the water tank. The large 400 ml transparent water tank allows for extended ironing sessions without frequent refills.

1. Open the water tank inlet cover.
2. Fill the tank with clean tap water up to the 'MAX' indicator. Distilled water is recommended in areas with hard water to prevent mineral buildup.
3. Close the inlet cover securely.

Figure 2: Demonstrates the process of filling the 400 ml water tank of the ironing center.

### 3. Initial Use

Before first use, or after prolonged storage, it is recommended to iron an old piece of fabric to remove any manufacturing residues from the soleplate.

## OPERATING INSTRUCTIONS

### 1. Powering On and Temperature Selection

Plug the ironing center into a suitable power outlet. The appliance features a rapid heating system. Use the intuitive LCD screen to select one of the 4 pre-set ironing programs, which automatically adjust the temperature according to the fabric type.

Figure 3: Close-up view of the LCD screen, showing fabric type selections for precise temperature control.

## 2. Steam Functions

- **Continuous Steam:** Provides up to 65 g/min of continuous steam for effective wrinkle removal.
- **Steam Shot:** Activate the powerful 230 g/min steam shot for stubborn wrinkles. This feature penetrates deep into fabric fibers.
- **Vertical Steam:** Ideal for refreshing hanging garments, curtains, or delicate fabrics. Hold the iron vertically and press the steam button.
- **Smart i-Pump Technology:** This intelligent touch sensor activates steam only when the iron is in motion, eliminating the need to constantly press a button.

Figure 4: The ironing center actively producing steam during use, demonstrating its powerful steam output.

### 3. Ironing Tips

- The anodized aluminum soleplate ensures ultra-smooth gliding and scratch resistance. Its numerous micro-holes distribute steam evenly.
- The precision tip allows access to difficult areas like collars, cuffs, and around buttons.
- For optimal results, iron fabrics in the order of their required temperature, starting with lower temperatures.
- The Eco Mode saves up to 40% energy without compromising performance.

Figure 5: Detailed view of the iron's precision tip, designed for reaching difficult areas.

## MAINTENANCE

### 1. Self-Cleaning Function

The ironing center is equipped with a self-cleaning function to remove dirt and mineral deposits from the steam chambers. Refer to the specific instructions in the full manual for activating this cycle.

### 2. Anti-Calc System

An integrated filtering system helps prevent limescale accumulation, prolonging the life and performance of your appliance. Regular use of the self-cleaning function complements this system.

### 3. Anti-Drip System

The anti-drip system prevents condensed water droplets from escaping the soleplate at low temperatures, thus avoiding water marks on your clothes.

#### 4. Cleaning the Soleplate

Allow the soleplate to cool completely. Wipe it with a damp cloth and a non-abrasive cleaner if necessary. Do not use abrasive pads or harsh chemicals as they can damage the anodized surface.

#### 5. Storage

After use, empty the water tank and allow the iron to cool down. Store the ironing center in a dry, safe place, away from direct sunlight and moisture.

Figure 6: The ironing center in a resting position, indicating readiness for storage after use.

### TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Iron does not heat up or turns off unexpectedly.	Power supply issue, automatic safety shut-off activated, or internal malfunction.	Check power connection. Ensure the iron is not left unattended for too long (auto-off feature). If problem persists, contact customer support.
Water drips from the soleplate.	Temperature is too low for steam generation, or anti-drip system is overwhelmed.	Increase the temperature setting. Wait for the iron to reach the selected temperature before using steam.
Insufficient steam or no steam.	Water tank is empty, or steam vents are clogged.	Refill the water tank. Perform the self-cleaning function to clear mineral deposits.
Difficulty seeing water level in tank.	Dark tint of the water tank.	Tilt the iron or use a bright light source to better gauge the water level.
Accidental button presses during use.	Ergonomic design of buttons.	Adjust grip to avoid unintended button activation, particularly the continuous steam button.

## SPECIFICATIONS

Feature	Detail
Brand	Cecotec
Model Number	05105
Power	3100 W
Steam Shot	230 g/min
Continuous Steam	65 g/min
Soleplate Material	Anodized Aluminum
Water Tank Capacity	400 ml
Special Features	Automatic shut-off, Self-cleaning, Anti-drip, Anti-calc, Smart i-Pump Technology, LCD screen with 4 programs, Eco Mode
Dimensions	19 x 15 x 32 cm
Weight	1.2 kg
Color	Black
