Daylight Slimline 3 Table Lamp User Manual

Model: U35108

INTRODUCTION

The Daylight Slimline 3 Table Lamp (Model U35108) is designed to provide optimal lighting for intricate tasks, enhancing clarity and detail. This third-generation lamp features an advanced aluminum shade for superior light diffusion and a four-step dimmer for precise brightness control. Its sleek design and non-obtrusive clamp make it a versatile lighting solution for various environments.

Ideal for activities such as sewing, needlework, quilting, nail work, makeup artistry, arts and crafts, and reading, this lamp is engineered to meet the needs of professionals and hobbyists alike. The flexible joints allow for perfect positioning, ensuring light is directed exactly where needed.

SAFETY INFORMATION

- Always ensure the lamp is securely clamped to a stable surface before use.

- Do not attempt to disassemble or modify the lamp. Refer all servicing to qualified personnel.

- Keep the lamp away from water or other liquids. This product is not waterproof.

- Use only the power cable supplied with the lamp.

- Avoid looking directly into the LED light source for extended periods, as it may cause eye strain.

- Ensure proper ventilation around the lamp during operation.

- Keep out of reach of children and pets.

PACKAGE CONTENTS

Please check the box for the following items:

- Daylight Slimline 3 Table Lamp (Model U35108)

- Power Cable

- Table Clamp

- Instruction Manual

SETUP

1. **Unpack the Lamp:** Carefully remove all components from the packaging.

2. **Attach the Clamp:**

   The Slimline 3 lamp comes with a discreet table clamp. Loosen the screw on the clamp and slide it onto the edge of your desk or work surface. Tighten the screw firmly to secure the lamp in place. Ensure the surface is sturdy enough to support the lamp.

TABLE CLAMP
(included)

OPTIONAL TABLE BASE
(not included)

Image: The included table clamp provides a secure and space-saving mounting option. An optional table base (not included) is also shown for alternative placement.

3. **Position the Lamp:**

   The lamp features flexible joints and a long, slim head. Adjust the arm and head to your desired position, directing the light precisely onto your work area. The flexible design allows for a maximum reach of 73 cm (29 inches).
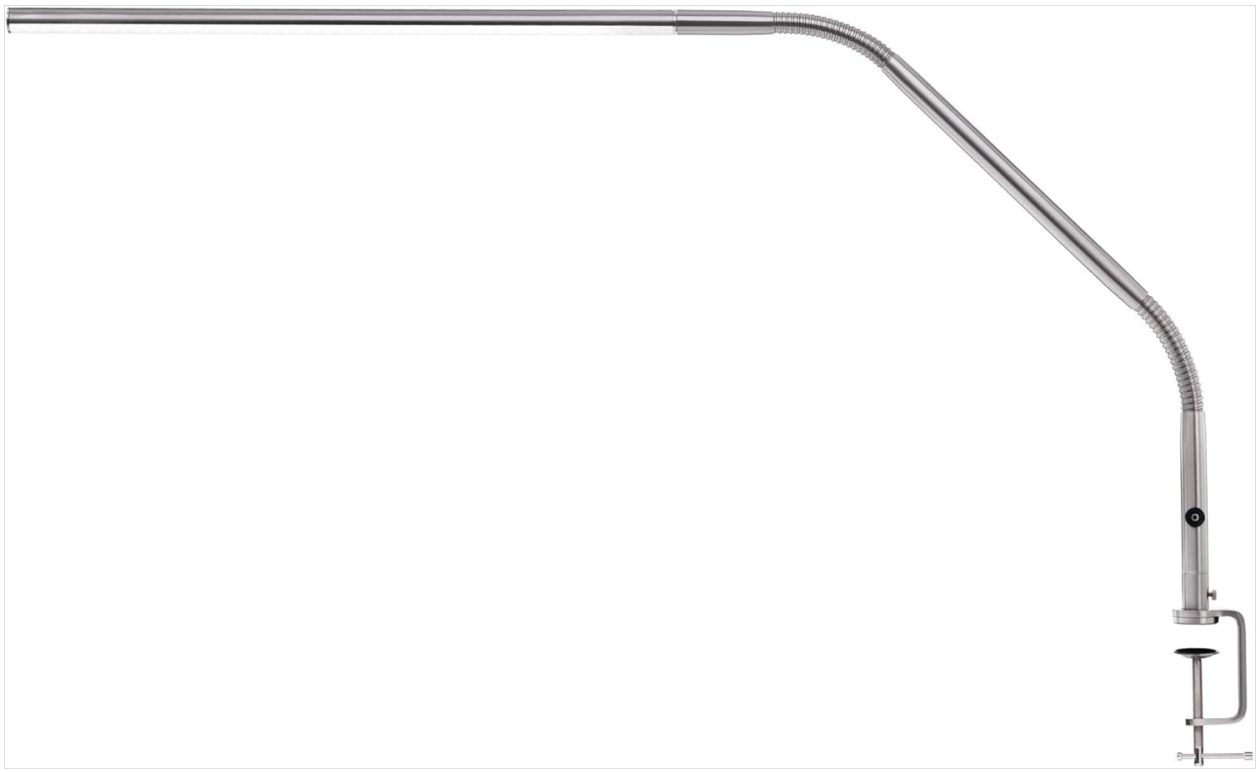

Image: The Slimline 3 lamp in its full extended position, demonstrating its flexible arm and clamp attachment.

4. **Connect Power:** Plug the power cable into the lamp's power input, then plug the other end into a suitable power outlet. The lamp operates on 5 Volts.

OPERATING INSTRUCTIONS

The Slimline 3 Table Lamp features a touch-sensitive control for power and brightness adjustment.

1. **Power On/Off:** Locate the round switch button on the lamp. Touch the button once to turn the lamp on. Touch it again to turn the lamp off.
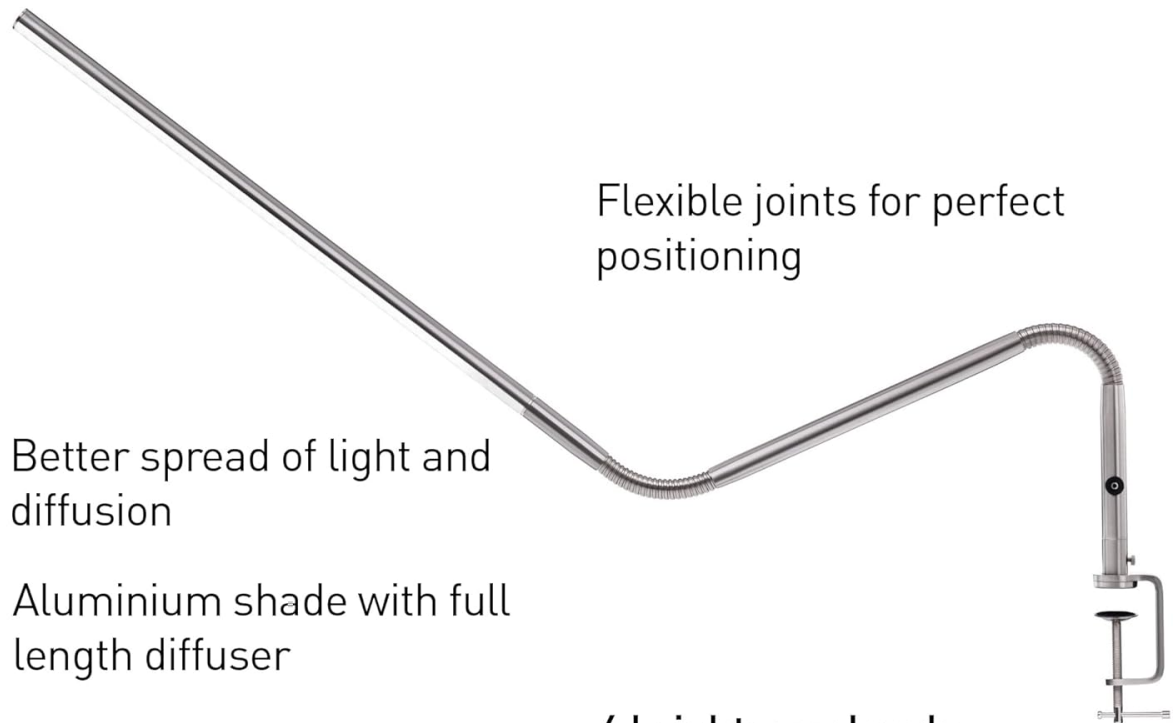

2. **Adjusting Brightness (4-Step Dimmer):**
   The lamp features a four-step touch dimmer, allowing you to cycle through different brightness levels. Each subsequent touch of the power button will adjust the brightness:

   - **1st Touch:** 3,000 Lux (Brightest)
   - **2nd Touch:** 2,000 Lux
   - **3rd Touch:** 1,500 Lux
   - **4th Touch:** 750 Lux (Lowest)
   - **5th Touch:** Turns the lamp off.

Maintenance

- **Cleaning:** Ensure the lamp is unplugged before cleaning. Wipe the lamp's surface with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed by immediate drying. Do not use abrasive cleaners or solvents.

- **Storage:** If storing the lamp for an extended period, ensure it is clean and dry. Store it in a cool, dry place, preferably in its original packaging to protect it from dust and damage.

- **LED Longevity:** The integrated LED light source is designed for long life (up to 50,000 hours) and does not require replacement.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Lamp does not turn on.	○ Power cable not securely connected. ○ Power outlet is not active. ○ Faulty power cable.	○ Check all cable connections. ○ Test the outlet with another device. ○ Contact customer support for a replacement cable.
Brightness levels are not changing.	○ Incorrect operation of the touch dimmer. ○ Internal electronic issue.	○ Ensure you are touching the button correctly to cycle through the 4 steps. ○ Unplug the lamp for 30 seconds and plug it back in. If the issue persists, contact support.
Lamp flickers or light is inconsistent.	○ Unstable power supply. ○ Internal component issue.	○ Try plugging the lamp into a different power outlet. ○ Contact customer support.
