Operating Instructions

Keyboard Functions

The keyboard features RGB backlighting, programmable macro keys, and multimedia controls.

- **RGB Backlighting:** The keyboard offers 6 distinct RGB backlight effects. Use the dedicated function keys (e.g., Fn + Insert/Home/Page Up/Delete/End/Page Down) to cycle through these modes. Brightness and speed can be adjusted via the software.
- **Macro Recording:** The keyboard is equipped with 5 dedicated Macro Record keys (G1-G5). To record a macro:
  1. Press the **Rec** key to start recording.
  2. Press one of the G1-G5 keys to assign the macro.
  3. Type the desired key sequence.

4. Press the **Rec** key again to save the recording.
5. To play the macro, press the assigned G key.

- **Multimedia Keys:** Utilize the 4 independent and 12 combination multimedia keys for quick access to media controls.
- **Anti-Ghosting:** The keyboard supports 26 non-conflict keys for accurate input during intense gaming sessions.

Mouse Functions

The mouse features adjustable DPI settings and RGB lighting modes.

- **Adjustable DPI:** The mouse DPI can be adjusted to 800, 1200, 1600, 2400, or 7200 DPI to suit different usage scenarios. Use the DPI button on the mouse to cycle through these settings.
- **RGB Lighting:** The mouse offers 10 RGB lighting modes. These can be customized using the software.
- **Programmable Buttons:** All mouse buttons are programmable via the software for personalized control.
- **Adjustable Weights:** The mouse includes adjustable weights to fine-tune its feel and balance.

Software Customization

The Redragon software allows for comprehensive customization of both the keyboard and mouse. This includes:

- Editing lighting effects, brightness, and speed.
- Setting up macro functions for keyboard keys.
- Customizing mouse DPI levels.
- Programming individual mouse buttons.

Download the software from the official Redragon website:redragon.com. Search for "S101-3 Pro" to find the correct download.

Maintenance

Cleaning

- Disconnect both the keyboard and mouse from your computer before cleaning.
- Use a soft, dry cloth to wipe down the surfaces of the keyboard and mouse.
- For stubborn dirt, lightly dampen the cloth with water or a mild, non-abrasive cleaner.
- Use compressed air to remove dust and debris from between the keyboard keys.
- Avoid using harsh chemicals or abrasive materials, as these can damage the finish.

Storage

When not in use, store the keyboard and mouse in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

Keyboard or Mouse Not Responding

- Ensure both devices are securely plugged into active USB ports on your computer.
- Try plugging the devices into different USB ports.
- Restart your computer.
- Verify that the latest drivers are installed. If using custom software, ensure it is running correctly.

Backlighting Issues

- Check the brightness settings using the keyboard's function keys or the software.
- Ensure the software is correctly configured for your desired lighting effects.
- If specific keys are not lighting up, check for physical damage or contact support.

Macro Keys Not Working

- Ensure macros are correctly recorded and assigned using the Redragon software.
- Verify that the macro keys are not disabled or conflicting with other software.
