Biddeford Blankets Micro Plush Electric Heated Blanket User Manual

Comprehensive instructions for your Biddeford Blankets Micro Plush Electric Heated Blanket (Model 2030-905191-544).

1. INTRODUCTION

Thank you for choosing the Biddeford Blankets Micro Plush Electric Heated Blanket. This ultra-soft polyester blanket is designed to provide warmth and comfort with adjustable heat settings and a digital controller. This manual provides essential information for safe and effective use of your new heated blanket.

This Twin size blanket measures 62 x 84 inches and comes with one digital controller. Larger sizes (Full, Queen, King) may include dual controllers for individualized comfort zones.

2. IMPORTANT SAFETY INFORMATION

WARNING: Proposition 65. This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

- Always disconnect and remove controllers before washing the blanket.
- Do not use an extension cord or power strip with this blanket. Plug directly into a wall outlet.
- Ensure the controller is placed in a location where it will not be covered or obstructed during use.
- All Biddeford Blankets are tested and approved by a 3rd party (UL or ETK Intertek) to comply with industry safety standards.
- The controller includes an auto shut-off timer for safety and reliability.

3. SETUP INSTRUCTIONS

Follow these steps to properly set up your electric heated blanket:

1. Unpack the blanket and controller(s) from the packaging.
2. Lay the blanket flat on your bed. Ensure the connector for the controller is positioned near the head of the bed.
3. Locate the connector on the blanket. Align the arrows on the controller's plug with the arrows on the blanket's connector. Firmly push the plug into the connector until it securely locks.
4. Plug the power cord from the controller directly into a 120V AC wall outlet. Do not use extension cords or power strips.

4. OPERATING INSTRUCTIONS

Your Biddeford heated blanket features a digital controller with multiple heat settings and an auto-off function.

- **Power On/Off:** Press the power button on the controller to turn the blanket on or off.
- **Adjust Heat Settings:** Use the up and down arrow buttons to select your desired heat level. There are 10 heat settings available.
- **Pre-Heat Function:** Some models may include a pre-heat option. If available, pressing the "Pre-Heat" button will quickly warm the blanket to a higher temperature before settling to your selected setting. This is ideal for warming cold sheets before getting into bed.
- **Automatic Shut-Off:** For your safety and convenience, the blanket is equipped with a 10-hour auto-off safety feature. It will automatically turn off after 10 hours of continuous use.
