Relaxdays Vanity Unit 60.5x60x30.5cm

Relaxdays White Vanity Unit with 2 Compartments Instruction Manual

Model: Vanity Unit 60.5x60x30.5cm

INTRODUCTION

This manual provides comprehensive instructions for the assembly, installation, and care of your Relaxdays White Vanity Unit with 2 Compartments. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

Observe the following safety precautions during assembly and use:

- Ensure all parts are present and undamaged before assembly.
- Assemble on a soft, clean surface to prevent scratches and damage to the unit.
- Do not overtighten screws, as this can strip threads or crack materials.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- The maximum load capacity for this unit is approximately 30 kg. Do not exceed this weight to prevent structural damage or injury.
- This unit is designed for indoor use in a bathroom environment. Avoid exposure to extreme temperatures or direct sunlight.

PACKAGE CONTENTS

Verify that all components listed below are included in your package. If any parts are missing or damaged, please contact customer support.

- Vanity Unit components (MDF panels, bamboo elements for doors and legs)
- Mounting hardware (screws, dowels, hinges, shelf supports)
- Assembly instructions (this document)

SETUP AND ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your vanity unit. It is recommended to have two people for assembly.

Step 1: Unpack and Identify Parts

Carefully unpack all components and lay them out on a clean, soft surface. Identify each part using the provided hardware list and diagrams (if any were included in the physical package).

Step 2: Assemble the Frame

Connect the side panels to the base and top panels using the provided screws and dowels. Ensure all connections are secure but do not overtighten.

Step 3: Install the Back Panel

Slide or attach the back panel into the designated grooves or using small nails/screws. Ensure the siphon cut-out aligns correctly with the intended sink placement.

Step 4: Install the Shelf

The vanity unit features a height-adjustable shelf. Insert the shelf supports into the desired holes on the side panels. Place the shelf onto the supports. The shelf can be removed or adjusted later as needed.

Step 5: Attach the Doors

Attach the hinges to the doors and then to the side panels of the unit. Adjust the screws on the hinges to ensure the doors close properly and are aligned.

Step 6: Position the Unit

Carefully move the assembled vanity unit into its desired position under the sink. Ensure the siphon fits through the cut-out without obstruction.

USAGE INSTRUCTIONS

The Relaxdays White Vanity Unit is designed to provide convenient storage in your bathroom. Utilize the two compartments for organizing towels, cleaning products, toilet paper, and other bathroom essentials.

- **Storage:** Open the double doors to access the interior. The adjustable shelf allows for flexible storage configurations to accommodate items of various heights.
- **Siphon Cut-out:** The integrated siphon cut-out ensures the unit fits seamlessly under most standard sinks, maximizing otherwise unused space.

MAINTENANCE AND CARE

To ensure the longevity and appearance of your vanity unit, follow these care guidelines:

- **Cleaning:** Wipe the surfaces with a dry, soft cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish and bamboo elements.
- **Moisture Protection:** While designed for bathroom use, avoid prolonged exposure to excessive

moisture. Wipe up spills immediately.

- **Regular Checks:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Doors do not align or close properly.	Hinges are not adjusted correctly or are loose.	Adjust the screws on the hinges to align the doors. Ensure hinges are securely fastened.
Unit wobbles after assembly.	Screws are not fully tightened or unit is on an uneven surface.	Ensure all assembly screws are tightened. If the floor is uneven, use furniture pads or shims under the legs to stabilize.
Siphon does not fit through the cut-out.	Sink or siphon dimensions are not standard or unit is not positioned correctly.	Verify the dimensions of your sink's siphon against the unit's cut-out (approx. 8 x 16.5 cm). Adjust the unit's position.

SPECIFICATIONS

Model:	Vanity Unit 60.5x60x30.5cm
Brand:	Relaxdays
Dimensions (H x W x D):	Approx. 60.5 x 60 x 30.5 cm
Siphon Cut-out (W x D):	Approx. 8 x 16.5 cm
Weight:	Approx. 11 kg (20.94 Pounds)
Max. Load Capacity:	Approx. 30 kg
