## Joseph Joseph 70522

# Joseph Joseph Flex Lite Silicone Toilet Brush with Slimline Holder Set

Model: 70522 | Brand: Joseph Joseph

## 1. INTRODUCTION

The Joseph Joseph Flex Lite Silicone Toilet Brush is designed for effective and hygienic toilet cleaning. Its innovative D-shaped flexible head allows access to all areas of the toilet bowl, including under the rim. The water-repellent silicone material ensures quick drying and prevents dirt accumulation, offering a more hygienic alternative to traditional bristle brushes. The slimline holder provides compact and discreet storage.

### 3. OPERATING INSTRUCTIONS

---

To use the Joseph Joseph Flex Lite Silicone Toilet Brush:

1. Remove the brush from its slimline holder.
2. Apply your preferred toilet cleaner to the bowl.
3. Utilize the flexible D-shaped head to clean all surfaces of the toilet bowl. The unique shape allows for thorough cleaning, including hard-to-reach areas under the rim.
4. The widely spaced silicone bristles are designed to prevent dirt from clogging, ensuring efficient cleaning.
5. After cleaning, shake off excess water from the brush head. The water-repellent material minimizes dripping.
6. Return the brush to its slimline holder for compact and hygienic storage.

## 4. MAINTENANCE

To maintain the cleanliness and effectiveness of your Joseph Joseph Flex Lite Silicone Toilet Brush:

- **Brush Head:** The silicone head is naturally water-repellent and anti-clog. After each use, rinse the brush head thoroughly under running water to remove any debris.
- **Cleaning:** Both the brush and holder can be cleaned with bleach or hot soapy water.
- **Caution with Bleach:** If using bleach, avoid prolonged contact with the stainless-steel shaft to prevent potential damage or discoloration.
- **Storage:** Always store the brush in its slimline holder to keep it hygienic and out of sight.

## 5. TROUBLESHOOTING

Issue	Possible Cause	Solution
Brush feels stiff or awkward to use.	Unfamiliarity with the flexible D-shaped design.	Allow time to familiarize yourself with the brush's flexibility. The design is intended to reach areas traditional brushes cannot.
Ineffective cleaning, especially for hard water stains.	Hard water deposits may require specific cleaning agents.	Use the brush in conjunction with a suitable toilet bowl cleaner designed for hard water or limescale. Ensure sufficient contact time for the cleaner to work.
Debris or toilet paper not rinsing off the bristles easily.	Insufficient rinsing or stubborn debris.	Rinse the brush head thoroughly under strong running water or swirl it vigorously in clean toilet water. The wide spacing of the bristles is designed for easy release of debris.
