Outsunny 10' x 10' Hardtop Gazebo Instruction Manual

Model: 84C-094V01BN | Brand: Outsunny

INTRODUCTION

Thank you for choosing the Outsunny 10' x 10' Hardtop Gazebo. This manual provides essential information for the safe and proper assembly, operation, and maintenance of your new gazebo. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This gazebo is designed to provide a comfortable and sheltered outdoor space, featuring a durable galvanized steel roof, a sturdy aluminum frame, and versatile netting and curtains for privacy and protection from elements.

SAFETY INFORMATION

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

Always ensure the gazebo is securely anchored to the ground using the provided stakes or expansion screws. Do not use the gazebo in extreme weather conditions such as heavy winds, snow, or thunderstorms. Clear snow accumulation from the roof to prevent collapse. Keep all flame and heat sources away from the gazebo fabric.

SETUP AND ASSEMBLY

Assembly of the Outsunny Hardtop Gazebo requires at least two people. It is recommended to lay out all parts and identify them according to the parts list before beginning. Tools required include a Phillips screwdriver, a 10mm wrench, and a 4mm hex key (noted in reviews that better quality tools than those supplied are recommended).

Key Assembly Tips:

- Carefully unpack all components and verify against the parts list.
- Do not fully tighten all bolts until the entire frame is assembled and squared. This allows for necessary

flexibility during construction.

- When installing roof panels, ensure they align correctly with pre-drilled holes. Loosening frame bolts slightly can aid in alignment.
- Securely attach the gazebo to either soft ground using the 12 support stakes or hard ground using the 12 expansion screws.

OPERATING INSTRUCTIONS

Your Outsunny Gazebo is designed for versatile use in various outdoor settings. It features a dual-layer system of mesh netting and privacy curtains.

- **Mesh Netting:** Use the four zipper mesh netting sidewalls to keep insects out while allowing air circulation. This is ideal for enjoying the breeze without pests.
- **Privacy Curtains:** The four zipper polyester privacy curtains can be used to block strong sunlight, provide privacy, or offer additional shelter from light wind and rain. They can be tied back when not in use for an open-air feel.
- **Ceiling Hook:** A central ceiling hook is provided for hanging lights, fans, or other decorative items.

MAINTENANCE

Proper maintenance will extend the life of your Outsunny Gazebo.

- **Cleaning:** Clean the galvanized steel roof and aluminum frame with mild soap and water. Rinse thoroughly and dry completely to prevent water spots and corrosion.
- **Fabric Care:** The polyester curtains and mesh netting can be spot cleaned with mild detergent. For deeper cleaning, they may be removed and hand washed. Ensure they are completely dry before reattaching or storing to prevent mildew.
- **Winter Storage:** In areas with heavy snow or extreme cold, it is recommended to remove the curtains

and netting and store them indoors. While the hardtop roof is durable, clearing heavy snow accumulation is crucial to prevent structural damage.

- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain structural integrity.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Difficulty aligning roof panels/frame.	Bolts tightened too early during assembly.	Loosen all frame bolts, adjust components for alignment, then re-tighten once everything is in place.
Gazebo feels unstable.	Improper anchoring or loose hardware.	Ensure all anchoring stakes/screws are fully engaged. Check and tighten all frame bolts. Consider additional anchoring methods for high wind areas.
Water leakage from roof.	Improper panel overlap or sealing.	Verify roof panels are correctly overlapped and secured. Apply a weather-resistant sealant to seams if necessary.

SPECIFICATIONS

Feature	Detail
Brand	Outsunny
Model Number	84C-094V01BN
Material	Aluminum, Alloy Steel
Product Dimensions	117.25"L x 117.25"W x 102.25"H (9.8' L x 9.8' W x 8.5' H)
Item Weight	99 Pounds
Frame Material	Aluminum
Roof Material	Galvanized Steel
Water Resistance Level	Waterproof
Shape	Square
UV Protection	Yes
Assembly Required	Yes
Color	Coffee Brown
